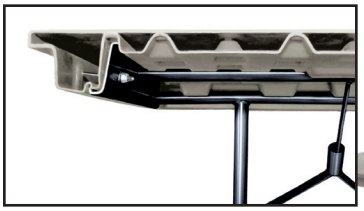
Pre-Paint Treatment and Powder Coating

Frame and tubing is industrial cleaned for rust resistance and superior paint adhesion. Baked on polyester powder coating has outstanding toughness, excellent weathering properties and a smooth appearance.

Table Top

Blow molded table top of polyethylene plastic with color blended throughout. Formulated for outdoor exposure with minimal fade or thermal stress cracking (indoor storage recommended). Average thickness of material engineered to be .140". Excellent stacking performance, 15 high maximum is recommended. Edge of table is 7/8" thick to accept standard skirting clips. Round tables are made with two half circle pieces electronically bonded together. Top is attached to main frame with bolts and nylon nuts to provide extreme durability and ensure there is no separation during rough handling.



Strong!
Holds up to 3500 lbs!

Feet & Rivets

Glides are insert style flush mount standard. Nylon pad on glide for non-marring of floor surfaces. Rivets are ¼", zinc plated to resist rust and powder coated for complete rust protection.

Color

All Commercialite® tables have Gray tops and Black powder coat frame and legs.
