Grout joint recommendation: 1/16" or 1/8" when used in a pattern.

approved usage: Floors, Walls, Countertops & Exteriors

Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. For additional product information, refer to "Factors to Consider" at www.daltile.com/ResidentialFactors. Not for use on ramps.

shade variation:

 Medium (V2) – Color variation within each tile.

slip resistance (wet):

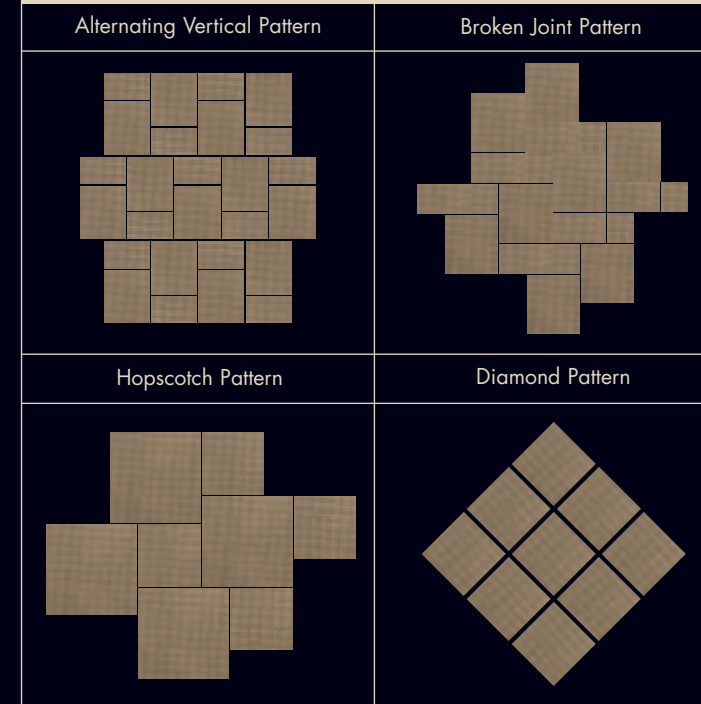

The higher the rating, the higher the slip resistance.

1	<.50
2	.50 - .59
3	≥.60

trim detail:

Type	Number	Size
 Bullnose	S-43C9	3" x 12"
 Cove Base	S-36C9T	6" x 12"
 Cove Base Outcorner	SC-36C9T	1" x 6"

tile pattern guide

Special care should be taken when grouting with dark pigmented colors. A grout release is recommended to prevent finely powdered pigments from lodging in the pores of the tile surface. Use of a modified latex thin-set is recommended for installation.

Special consideration needs to be given when installing tiles 20" and larger. Please refer to www.daltileproducts.com/LargeTiles for additional information.

Note: Since there are variations in all fired ceramic products, the tile and trim supplied for your particular installation may not match these samples. Final selection should be made from actual tiles and trim, and not from tile and trim samples or color reproductions. Manufactured in accordance with ANSI A137.1 standards.

Each tile is rectified and modular which allows for the use of smaller grout joints
