

Classic Fit T-Cushion

Instructions for SOFA, LOVESEAT or CHAIR
It's as Easy as 6 Steps to a SURE FIT

1 LOCATE
the sewn-in "Center Front" and "Center Back" labels. Also look for the positioning stickers on the left and right arms.

2 DRAPE
slipcover over furniture with seat cushions in place starting from the center top and working your way around all sides.

3 PULL DOWN
fabric so it touches the floor evenly on all four sides. Adjust arm and back sections to follow the shape of your original furniture style.

4 POSITION ARMS
and T-Cushion corners, and tuck excess fabric into creases. If there is excess fabric at the t cushion edge move front dart to the back and tie with ties. Line up top, back and shoulder seams to flatter your furniture.

5 TUCK & SMOOTH
to fit and contour shape working from the inside arms to the back. When you get to the seats, LIFT and WRAP the elastic under back and sides, pushing down and under the cushions. Smooth excess fabric by tucking it into the creases as you make your way around the furniture.

6 WHEN FINISHED
your slipcover will look neat and crisp. Now you're ready to accent with decorative pillows. It's "sure" to make a positive impression!

NOTE:
Adjustable ties can be knotted or tied in a bow.
