

Designed to be installed against tiled walls, the structure of the MAJESTIC starts with a fiberglass reinforced black acrylic base equipped for a standard drain and allows for the entire unit to be either installed in a left or right tiled corner. The front and side glass walls of the MAJESTIC are made of 5/16" tempered clear glass with the exclusive DreamLine ClearGlass™ coating for easy glass maintenance. A shower panel extends across the black tempered glass roof and down the tiled back wall of the MAJESTIC enclosure. Integrated steam control allow for full steam adjustment and provides access to lights, FM radio and MP3 sound functions. Built-in water management system consists of a high performance thermostatic mixer to maintain a set temperature. Three individual water diverters control the rain shower, jets and hand-held water functions. Used for a simple shower, jetted massage or a steam bath, the MAJESTIC truly lives up to its name.

MAJESTIC

- o Fiberglass reinforced black acrylic base ready for standard compression fitting drain (drain not included)
- o Wall mounted corner installation against finished walls
- o 5/16" (8mm) tempered clear glass with exclusive ClearGlass™ protective anti-limescale coating
- o Pivot door with full length magnetic door latch
- o Black glass roof with stainless steel horizontal column, halogen light & solid brass tropical rain shower
- o Stainless steel vertical shower panel, 6 pattern adjustable body jets, hand shower, thermostatic mixer, 3 water control diverters, FM/radio, MP3 controls and ozone sanitation
- o 3kW steam generator with On/Off/Time/Temp/Light
- o Optional removable teak wood flooring panel (not sold separately)
- o Dimensions: 35 7/8" x 47 5/8" x 87 3/8"

The exclusive factory applied DreamLine™ ClearGlass™ coating provides superior protection for shower glass. ClearGlass™ prevents mineral deposits, spotting, soap film and dirt from forming on the glass.
