

OWNERS MANUAL & INSTALLATION INSTRUCTIONS

Congratulations on your new bathtub purchase!

LoveMe™ by Aquatica Bathtub (applies to all EcoMarmor™ bathtubs)

Please read carefully and follow all instructions according to this document before starting the installation of your bathtub. Additionally, you should refer to these instructions during the lifecycle of your bathtub.

Upon receipt, immediately inspect the bathtub to make sure the unit has shipped as ordered and has arrived undamaged. If a problem is discovered, call your Aquatica or Aquatica dealer immediately.

Damages caused by mishandling of the product or during the installation are not covered under the warranty.

Installation instructions

Only a qualified professional should be installing your bathtub.

Preparation of installation area

The place under the bathtub must be at the same level as the rest of the floor.

All drain connections should fit in between bathtub and its legs (see the drawing).

The center of drain is indicated in the drawing. Before assembling connections check the waste outlet ($\varnothing 1\frac{1}{2}$ "); it must be either at the same level or maximum 2" from the floor.

Installation of bathtub

Once the installation location is prepared, water and drainage assembled, bathtub is ready for installation.

Adjust the height of the tub using unit feet (drawing a). Assure the tub is firm on all 4 feet; make sure the units is not wobbling.

Follow the plumbing installation sequence as outlined in the attached Appendix.
