## Towel Warmers Add Soothing Warmth

Add soothing warmth & personal comfort to master bath designs!

### 2 New Electric Towel Warmers in Contemporary Styles to Fit Any Decor

WarmlyYours has added a line of two new, professionally crafted electric towel warmers to our comfort products offering.

Now, builders, designers and architects can add towel warming luxury to homeowner bathroom construction and remodeling projects with the same ease and quality results as WarmlyYours floor warming systems.

### Finely Crafted and Hand Finished

WarmlyYours Portofino towel warmers are manufactured from superior quality high-carbon steel with electrostatic coatings and hand finished for durability and long lasting beauty. Our Riviera towel warmers are manufactured from high quality stainless steel in both polished and brushed finishes. Both models are heated by embedded warming cable for faster warmups, consume only a fraction of the power of comparable liquid filled models and are lighter in weight and easier to install.

### 2 Models in Popular Styles and Sizes to Choose From

Our popular decorative designs are as pleasing to look at as they are functional to own. All towel warmers operate on a standard 120-volt circuit and are backed by WarmlyYours 5-year manufacturer warranty.

**Riviera** - 24"W (600mm) x 32"H (790mm) x 5"D (120mm) in polished and brushed stainless steel finishes. Curved tubular profile accommodates 2 large towels. 150 watts.

**Portofino** - 24"W (600mm) x 32"H (800mm) x 9"D (225mm) in polished chrome finish. Integrated shelf provides storage and warming for additional towels. 140 watts.

### Single Stud Installation Offers Placement Ease and Flexibility

Non-liquid filled design and hidden wiring mounts offer single stud installation for ease and flexibility of placement of all WarmlyYours towel warmers.

Proprietary warming technology provides faster warm-up times for homeowner convenience, with up to 500 btu/h of heat output and superior operating efficiency.

### Programmable Timer Control

Program your towel warmer to turn ON and OFF automatically at specific times of the day with this easy to use 7-day programmable Timer. Set up to seven ON/OFF sequences a week or simply set the Timer to operate manually as an ON/OFF switch. Also includes an LCD that shows the day and time. Timer is UL listed and CSA certified.
