With its lifetime calibration, the MDF® Calibra™ Pro Aneroid Sphygmomanometer is ideal for medical professionals in all settings. Stress-tested over 3,000 times and calibrated 5 times before final assembly, it is one of the most durable, accurate, and dependable blood pressure measurement devices on the market.

Calibra™ Pro Aneroid Sphygmomanometer + Stethoscope

MDF® 808

4

Whether at home, in the office, or on the road, the MDF® Calibra™ Pro Aneroid Sphygmomanometer + Stethoscope is a traditional, easy-to-use blood pressure instrument that offers the convenience, portability, accuracy, and trouble-free operation ideal for home practitioners and self-administering users. Stress-tested over 3,000 times and calibrated 5 times before final assembly, it is one of the most durable, accurate, and dependable blood pressure measurement devices on the market.

Medic Palm™ Aneroid Sphygmomanometer

MDF® 848XP

4 8 11 12 14 16

The single-hand operated MDF® Medic Palm™ Aneroid Sphygmomanometer features an extra-large faceplate and shock-absorbing gauge guard. With inflation bulb and valve integrated into the gauge, this lightweight super-duty model combines performance, efficiency, and portability. Stress-tested over 3,000 times and calibrated 5 times before final assembly, it is one of the most durable, accurate, and dependable blood pressure measurement devices on the market.

OSCILLA™ Automatic Digital Blood Pressure Monitor

MDF® 850

29

The OSCILLA™ is a fully-automatic digital blood pressure measurement device that delivers fast, reliable measurements of systolic and diastolic blood pressure, as well as pulse frequency. Using OSCILLA™, you can quickly and easily check your blood pressure in the comfort of your own home. The easy-to-use design also stores up to 18 prior measurements with averages so you can track your blood pressure readings over time. Plus, the new OSCILLA™ InflateRead™ technology cuts measurement time by 40%, so just a few minutes a day can make the difference.

Desk & Wall Aneroid Sphygmomanometer

MDF® 840

4 11 12 14

The safety, durability, and convenience of the super-duty MDF® 840 make it ideal for high-traffic areas in the emergency room, clinic, or ambulance. With a certified manometer, stress-tested over 3,000 times, and calibrated 5 times before final assembly, it is one of the most durable, accurate, and dependable blood pressure measurement devices on the market.

The MDF® Mobile Aneroid Sphygmomanometer incorporates all the features of the MDF® Desk and Wall Aneroid Sphygmomanometer on a quiet, sturdy, easy-to-roll stand. Perfectly suited for vicinities in hospitals, clinics, and nursing homes where repeated blood pressure measurements are conducted. Stress-tested over 3,000 times and calibrated 5 times before final assembly, it is one of the most durable, accurate, and dependable blood pressure measurement devices on the market.
