

The SMARTest Chafing dish heater ever made!

1ABB580A110V ●

Simply put, this is the SMARTest chafing dish heater ever made. The electric heater uses magnets to attach to the bottom of a standard chafing dish. This model is 110 volts. Since it only pulls 300 watts, you can run 6 - 8 heaters on a standard electrical circuit. There is no re-wiring of the buffet required. You will save Green while you go Green! Also available in 220/230/240 volts, 1ABB580A230V.

Specifications

Carton quantity	1
