

The Large Odin Round Roll Top Stainless Steel Drop-In Chafing Dish with Electric Heating Element, a SMART choice for a classic style.

1A1444DB ●

The Large Odin Round Roll Top Stainless Steel Drop-In Chafing Dish not only looks great, but because of its unique design is also cost effective. This model includes an electric heating element. The lid opens to 90° and 180° for serving versatility and has an auto-braking system to prevent slamming. The lid will roll back to 90° and stop. To continue to 180° simply push the lid beyond the stop. This will help keep food warm more efficiently. The water control system will decrease labor by recycling the condensation from the lid to the water pan. In addition, the lid can be removed for easy cleaning. Handle keeps cool preventing burns. This unit can be flush mounted utilizing induction heat or our magnetic electric heater. The entire chafer is repairable, making this a quality investment that will last for years to come. It has a capacity of 6.9 qt/6.5 ltr.

Specifications
