

MODEL F8-12

DEEP FRYER FILTERS

- The **CARBON-ACTIVATED CHARCOAL FILTERS** help to prevent odors.
- The **OIL VAPOR FILTERS** catch splatter (this is the filter you see through the hole in the lid). When the oil vapor filter looks brown (or the colored square has changed) the filter should be replaced (approx 12 uses).

F8-12 - Package includes 3 carbon-activated charcoal filters for odors and 3 oil vapor filters.

SPECIFICATIONS:
SAP: 5525101500
