# KitchenAid® 13-Cup Food Processor

KFP1333

## Exceptional Performance

### New! External Adjustable Slicing Disc Feature

Gone are the days of stopping and removing the bowl to adjust the slicing disc thickness. Simply slide the easy access lever, from left to right, to adjust the slicing from thin to thick.

### Precision Performance and Results

Specially engineered speeds and cutting system process foods with ultimate precision. When perfectly sliced tomatoes, mushrooms, or any other soft food needs processing use the LOW speed. The HIGH speed slices or shreds hard foods, such as potatoes, carrots or cheese.

### Ultra Wide Mouth™ Feed Tube

The Ultra Wide Mouth™ Feed Tube adjusts to 3 different widths, accepting many whole foods and various shapes for processing. Whole tomatoes, potatoes and cucumbers easily pass into the processor with minimal prep.

## Enduring Design

### Comfort Design Side Handle

Newly designed side handle offers comfort. Handle placement also allows for easy viewing in bowl when in use.

### BPA-Free Bowls and Lids

BPA-free bowls offer two valuable qualities; for processing all foods and dishwasher safe.
