

SIDE LYING POSITIONING SYSTEM

Complete Package
ONLY
\$199

"I have been teaching pre- and perinatal massage for thirty years, and this system does it all! It is the first system designed specifically to comfortably support and stabilize every part of the body for side lying perfection."

CAROLE OSBORNE
 Author of *Pre- and Perinatal Massage Therapy*
 & 2008 AMTA National Teacher of the Year

"The SLP system is the finest quality bolstering system that I have ever used. It adds another level of professionalism to my Structural Integration and Myofascial Therapy practice."

GEORGE KOUSALEOS, BA, LMT, NCTMB
 Founder and president of the CORE Institute School of Massage Therapy and Structural Bodywork in Tallahassee, Florida

"Placing clients and patients, in the most comfortable and least stressed position, when administering hands on, therapeutic intervention will magnify the best outcome. The ability to work with people in a side lying position, comfortably, will allow the therapist to explore more therapy options."

BENNY VAUGHN LMT, ATC, NCTMB, CSCS
 Licensed Massage Therapist since 1974. He is a Certified Athletic Trainer and a Certified Strength and Conditioning Specialist

- ✓ Helps relax and stabilize your client to make your work easier
- ✓ Stretch soft tissues and mobilize joints with more ease

TREES for the FUTURE

OAKWORKS®
 Bodies Talk. We Listen.

HEAD REST:
Great cervical support and proper alignment support complete relaxation. The unique cut away design that supports the neck and head allows the arm to move, and the strap system allows the head to move their head from side to side.

TORSO CUSHION:
Comfort and security are achieved with this unique design. Featuring breast recesses. With our exclusive super soft Aero-cel foam system, the torso cushion gently lifts the shoulder and hip off the table to minimize pressure while cradling the client. Its special multi-density lower layers stabilize the rib cage to prevent rolling.

PILLOW COVER:
Hygienic and professional way to use a pillow. This pillow cover is made out of the same high quality 100% polyurethane fabric all our products are covered in. Easy to clean and professional looking.

LEG CUSHION:
Total relaxation of the leg and correct support of the hip is the goal. This unique design is generous in size, made of super soft Aero-cel foam, allows two different heights of support, and cradles the leg for added security. It can be used between the legs or as a support for the upper leg.

ADJUSTER WEDGE:
The wedge creates a custom fit for maximum comfort. Designed to be used almost anywhere, this small wedge makes a big difference in comfort.

STRAP:
Turn your flat portable table into a backrest table. The strap system allows you to create a very secure backrest on your portable table, and it doubles as a shoulder strap that secures all the pads together for transport.

The ultimate in comfort and support for all side lying work.
