- 38 Details and Descriptions

THE TIME HAS COME WHEN LESS REALLY DOES MEAN MORE. When quality surpasses quantity. When simplifying brings you a sense of unparalleled satisfaction. These are the impetuses behind Modern Craftsman.

Imagine rejecting all that is artificial and embracing something that is real and tangible, something that traces its inspiration back to some of our greatest artisans. Modern Craftsman takes the best design elements from mission, arts and crafts, mid-century modern, and the Pasadena school and creates something that is both of the moment and timeless.

Rooted in the idea that the new American lifestyle is one that harkens back to the true and honest, without hype or spin, Modern Craftsman lets its identity and soul shine through. From exposed joinery and stretcher motifs to industrial hardware, these pieces aren't afraid to showcase the structural details that set them apart.

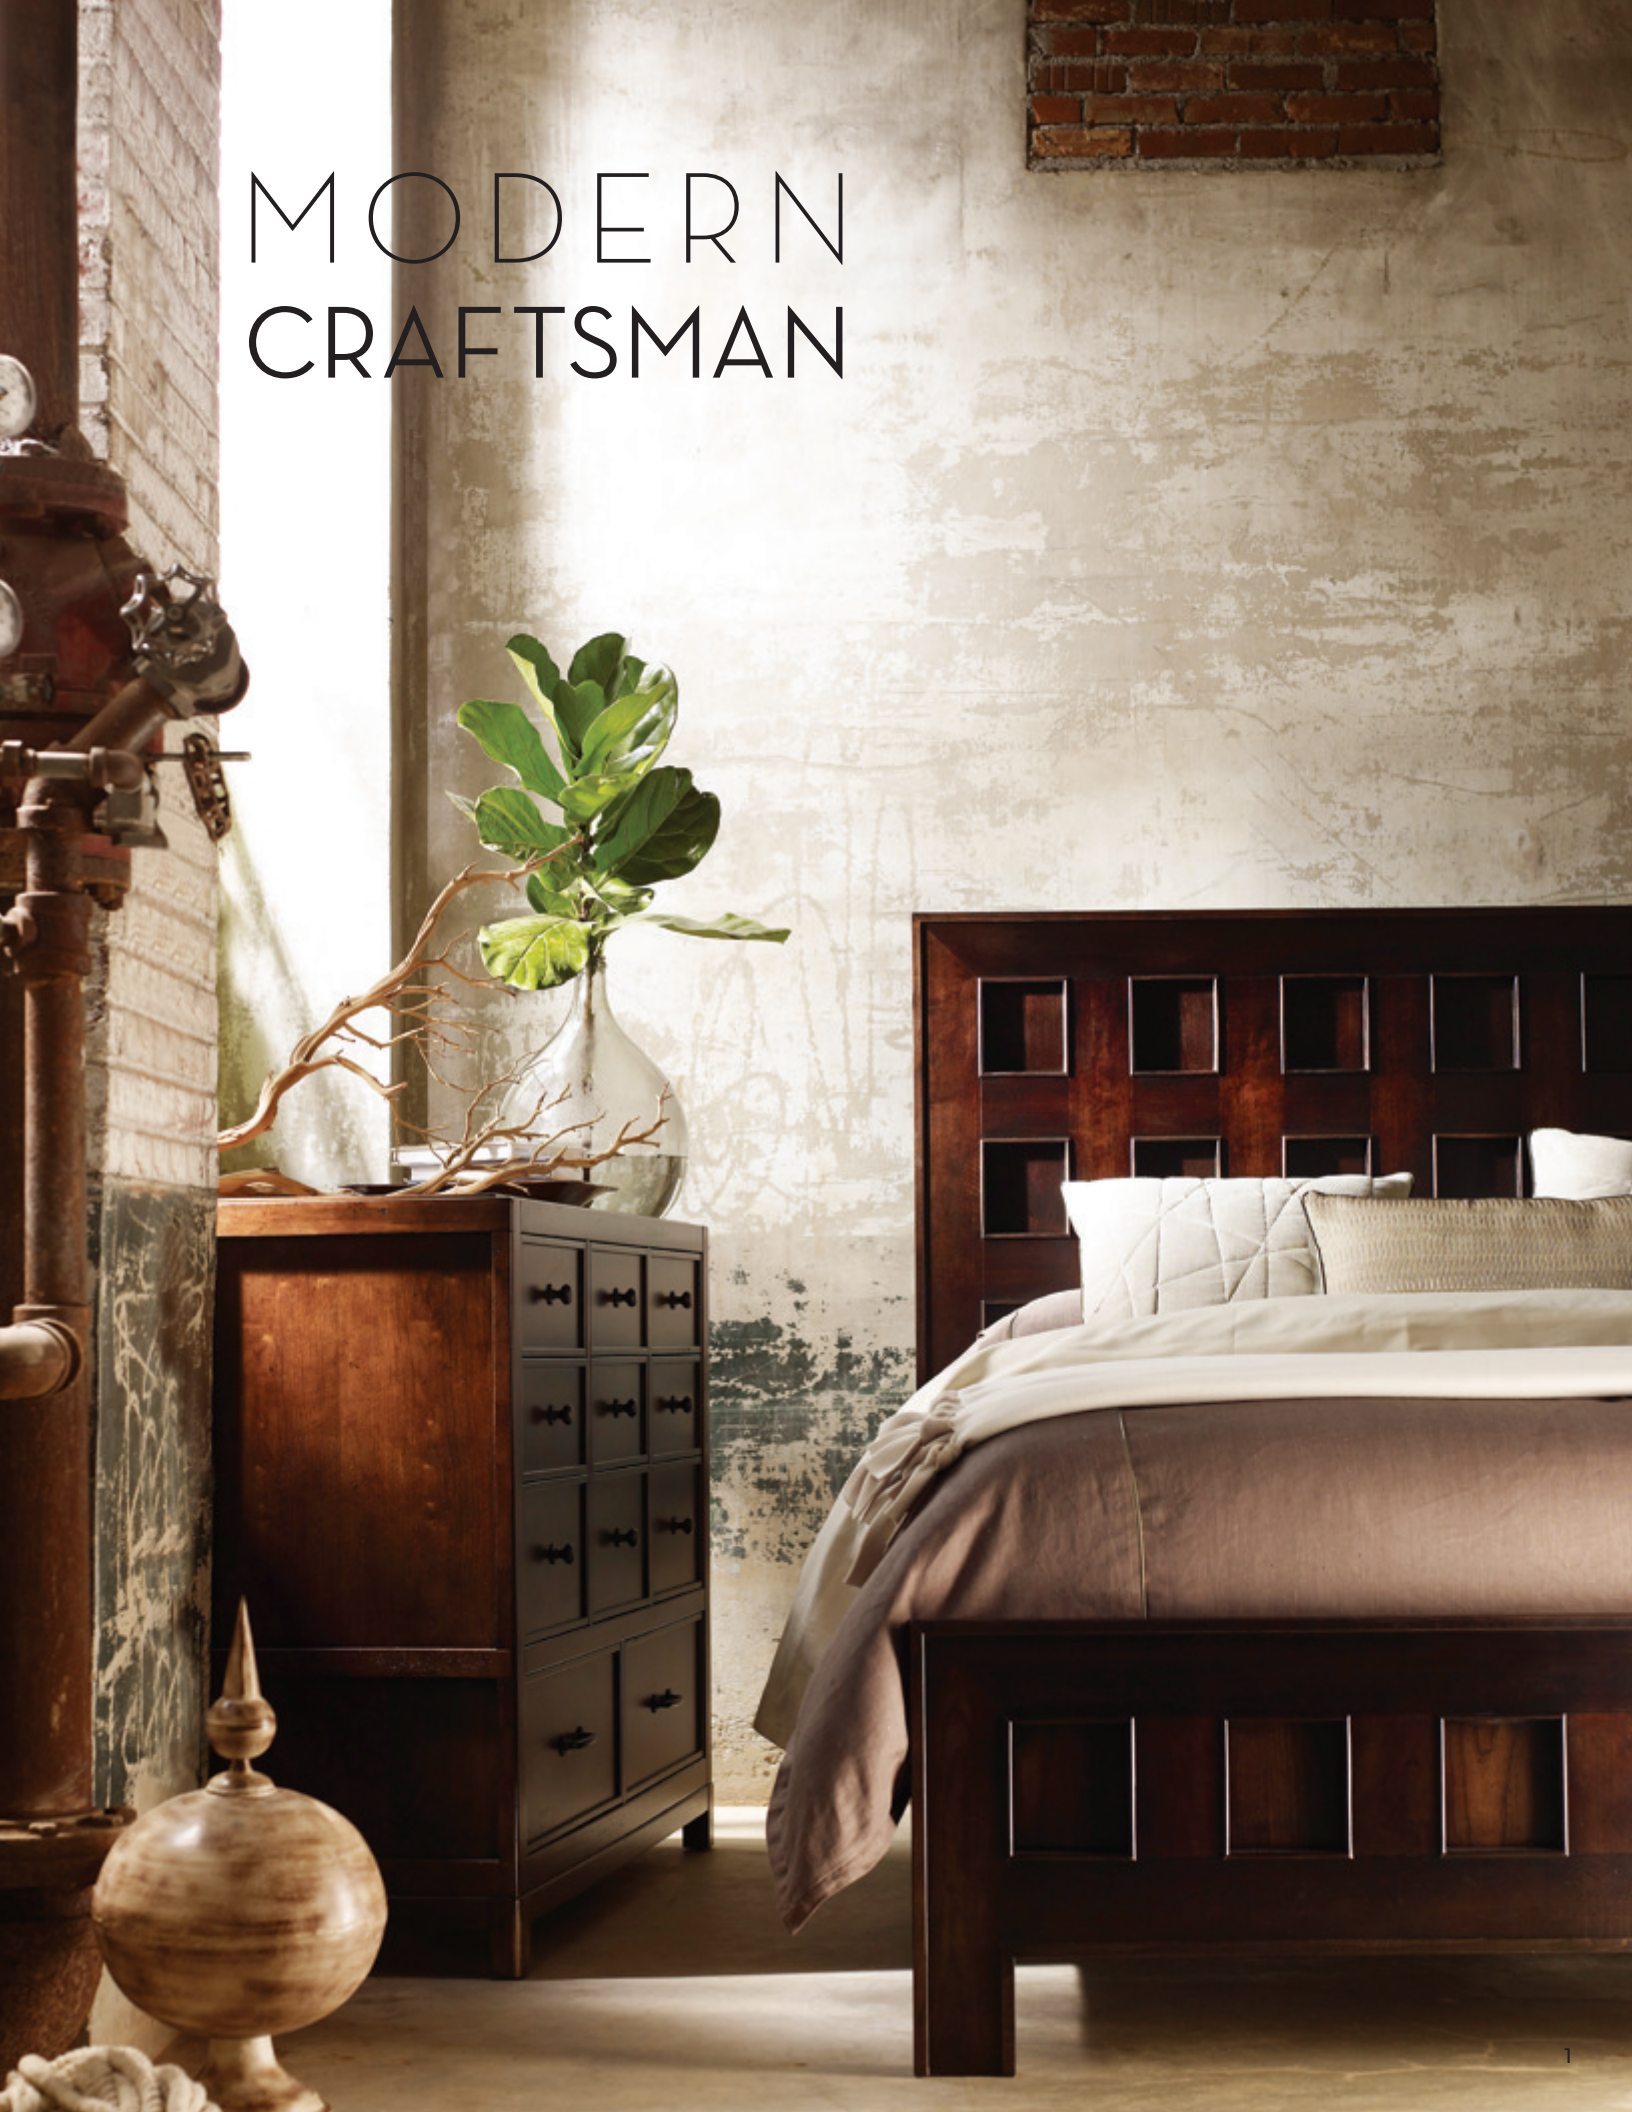

Not only does Modern Craftsman present distinctive design motifs, the collection offers you a wealth of finish options making it easy to introduce them into your home's decor. Whether you opt for the richness of an almost transparent, misty Mink with charcoal highlights or the casual, relaxed appeal of the Saddle finish, versatility is yours. Select designs are available with a hand-rubbed and skived Tobacco finish or a lighter toned, hand-rubbed Driftwood, testaments to the dedication and craftsmanship found in every selection.

While Modern Craftsman pays homage to its origins, it isn't afraid to impart the practicality of today. Finished in an oil-rubbed bronze, the hardware—simple pull bars and complimentary knobs all softly shaped for comfort—is a testament to the functionality of the collection.

Style is about being true to yourself and embracing the artistry behind a design. Modern Craftsman offers the poise that comes with integrity, as well as the assurance that beauty is attainable. Time to peel away the layers that have held us back and live honestly with individuality.

MODERN CRAFTSMAN

ELEMENTS OF STYLE

finish / wood characteristics

With its inspiration coming from the mission, and arts and crafts design movements, the woods and finishes of Modern Craftsman are integral to each piece's overall appeal and style. Veneers are a grade A cathedral cherry combined with rustic maple, mahogany and mindi solids.

The majority of designs, from the bedroom to the other living spaces, are available in Mink or Saddle. Dark, yet transparent, with soft charcoal highlights, Mink offers a pleasing, relaxed appearance. Saddle especially compliments the cherry wood tones, emphasizing them further with artistic distressing, creating a livable, flexible color. Tobacco and Driftwood are two accent finishes available on select pieces. Tobacco lends a rustic quality to the contemporary designs highlighted by a labor intensive chisel technique. On the pieces crafted from sungkai, Driftwood offers a complex, natural tone that is lighter in color. Artistic elements such as rasp, rock, worm hole and chiseling (skiving) are layered on to create complexity and personality. Additional distressing in the form of cow tail, spatter, fly speck, bruising and highlighting further each piece's depth and authenticity. Finally, an application of wool wax and hand-rubbing lend each finished piece a familiar and relatable allure.

hardware

Simplicity is the key to the hand-finished appeal of Modern Craftsman's straightforward bar pulls and knobs. Inspired by industrial fittings, but crafted with comfort in mind, each detail is further set apart by subtle rivets on the rosettes. Finally, an authentic oil-rubbed bronze finish completes the relaxed appeal of the designs.

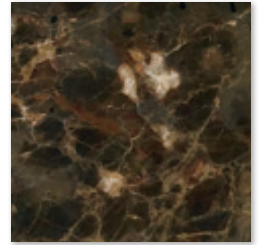

BAR PULL

KNOB

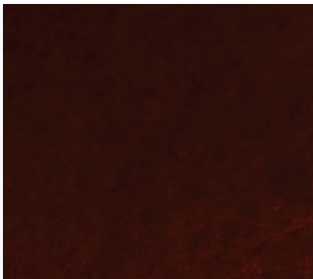

marble

Each piece of natural marble used in Modern Craftsman is unique. The characteristic swirls, vein lines and pattern variations are due to mineral impurities originally present in the limestone and also give marble its color. Consequently your marble will not be identical in color to the piece shown here. In addition, structural variations of the stone's crystallization cause what appear to be hairline cracks. Like the color variations, the structural variations are not a defect but an important part of any marble's unique character.

leather and its characteristics

Modern Craftsman features only the finest top-grain leather that's been aniline-dyed to give it a more supple texture, greater depth and a rich patina that only gets better with time. Gentle distressing adds to its relaxed and approachable appearance. Because leather is a natural product, both color and texture will vary slightly from hide to hide and even within the same hide. These natural markings and color variations enhance leather's individual character and bring out the rich, unique qualities that are so highly prized.

structural elements as design

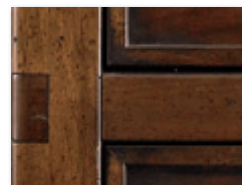

From the exposed joinery and uncovered casters to the fitter's margins and overlapping joints, Modern Craftsman revels in its structural elements. After all, at the heart of the design movements that inspired the collection is a love of the craft of wood work—the simple details involved in creating a signature piece from nature.

Available in Mink and Saddle finishes

SEE PAGES 26, 27, 30, 31

-100 INFRARED REMOTE READER

The infrared remote reader transfers your remote control signals to your audio/video components even if they are positioned behind wood panel doors, eliminating the need to insert glass panels. The infrared reader includes a receiver with mounting block, an infrared repeater control unit with power cord and three emitters. Each emitter, when properly positioned on the interior of the case, will transfer your remote control signal to the audio/video components positioned on one shelf. The system is easy to install and use. No programming is needed and the emitters may be repositioned as your audio/video components or configurations change.

- 18 ROBIE HOUSE SCREEN

Six stationary shelves
 86W 21 1/2D 81 5/8H (218 x 55 x 207 cm)

Available in Driftwood finish only
