40 Details and Descriptions

YOU WANT YOUR HOME TO BE A RETREAT. A place of escape that takes you away from the details of everyday life. A sanctuary that evokes passion and warmth, romance and inspiration. If the life you long to lead is set amidst the sun-drenched hues of the Iberian Peninsula, Costa del Sol is waiting for you.

Blending the range of Europe's southern sea coast, from Portugal's white-washed abodes to Greece's deep azure waters, Costa del Sol takes these influences and marries them to the stately allure of a Spanish villa and the decadent charm of an Italian country house.

Crafted to add unique style to any living space, Costa del Sol exemplifies our love of European design. With warm finishes and artistic distressing, each piece offers authenticity on a grand scale and will be something you are proud to pass on to the generations to come. Costa del Sol offers the lifestyle you were meant for.

Rustic pecan and white ash burl veneers are paired with rustic maple solids showcasing the aura of fine craftsmanship that is implicit in every design. Conveying authenticity with the hand-rubbed black finish to the mix of glass, hand-forged iron, and leather-wrapped cases, this collection makes a statement.

Grand in size and demeanor, Costa del Sol expresses its origins through a variety of aging techniques—rasp, rock, worm hole, hand-scoring and chiseling—all of which lend the loving look of years passed. Coupled with the a rustic Cordova finish, melding darkened edges and straw highlights, the collection's aesthetic is inescapably one of warmth and emotion.

Of course, it is the smallest details that make the biggest statement. Costa del Sol recognizes this as well. From a grand bail and rosette, to a door knocker and knobs, each replete with Spanish influences, the accents on each design speak to the collection's deepest belief—that your lifestyle awaits amidst Costa del Sol's distinctive villa-inspired world.

COSTA del SOL

ELEMENTS OF STYLE

finish / wood characteristics

CORDOVA

Building on the allure of Europe's sun-drenched south, designs are finished in Cordova, a rustic, mid-tone brown with heavy physical and chemical distressing. The techniques—rock dent, rasping, burnishing, fly speck and spatter, cow tailing, and axe marks—further the distinctive, aged appearance of each piece.

AXE MARKS

ARTISAN

Select pieces offer an equally rich look with the Artisan finish—hand-rubbed, hand-chiseled black paint. Additional elements of distressing—hand-planed, chiseled, rub-through, wormhole, and rock dent—lend an authentic patina. Each process is further evidence of the quality and heirloom potential in Costa del Sol's designs.

ROCK DENT

hardware

Evoking Spanish design influences, a stylized ring pull and grand bail and rosette are set apart with an antique, flamed brass finish. A smaller ring gets its inspiration from door knockers, while there are a variety of detailed knobs, all in the antique, flamed brass finish.

Decadently European, Cordova Tapestry is a rich mélange of burgundy and gold that reflects Old World style with New World spirit.

CORDOVA TAPESTRY

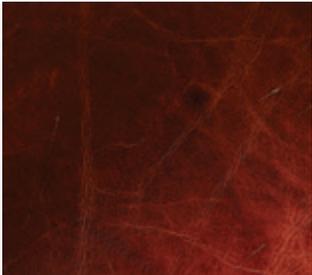

marble

Each piece of natural marble used in Costa del Sol is unique. The characteristic swirls, vein lines and pattern variations are due to mineral impurities originally present in the limestone and also give marble its color. Consequently your marble will not be identical in color to the piece shown here. In addition, structural variations of the stone's crystallization cause what appear to be hairline cracks. Like the color variations, the structural variations are not a defect but an important part of any marble's unique character.

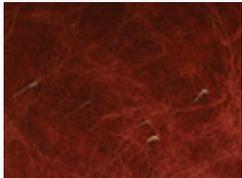

leather and its characteristics

Costa del Sol features only the finest top-grain leather that's been aniline-dyed to give it a more supple texture, greater depth and a rich patina that only gets better with time. Gentle distressing adds to its aged, heirloom appearance. Because leather is a natural product, both color and texture will vary slightly from hide to hide and even within the same hide. These natural markings and color variations enhance leather's individual character and bring out the rich, unique qualities that are so highly prized.

A photograph of a bedroom interior. In the foreground, a dark wood nightstand with four drawers is the central focus. Each drawer is decorated with a diamond-shaped pattern of small brass studs and has a round brass knob. The nightstand stands on four turned legs. On top of the nightstand sits a white ceramic pitcher with two handles, a clear glass vase filled with red flowers, and a small dark bowl. To the left, a bed with a dark wood headboard and white linens with a patterned design is visible. In the background, a window with a decorative leaded glass pattern allows light into the room. A dark wood chair is partially visible on the right side of the frame.

BEDROOM

Form and function unite in the Barcelona Stateroom Media Chest with side cabinets for extra DVD storage (top) and a drop front second drawer with electrical outlets for a DVD player (above).

-100 INFRARED REMOTE READER

The infrared remote reader transfers your remote control signals to your audio/video components even if they are positioned behind wood panel doors, eliminating the need to insert glass panels. The infrared reader includes a receiver with mounting block, an infrared repeater control unit with power cord and three emitters. Each emitter, when properly positioned on the interior of the case, will transfer your remote control signal to the audio/video components positioned on one shelf. The system is easy to install and use. No programming is needed and the emitters may be repositioned as your audio/video components or configurations change.

- 33 FERRO DI FINI LATERAL FILE
