To replace missing or damaged parts, or in case of any other difficulty with this product, please call toll free:

1-800-668-0490 (Canada & U.S.A. Only)

For a service rep. call between 9 am - 5 pm EST. Monday - Friday.

Required Tools: - #2 Phillips and flathead screwdrivers, hammer, wrench or pliers.

BEFORE STARTING: Identify all panels and hardware from "Parts List" on pages 2 & 3. The letters used to identify the panels do not appear on the actual items. To identify actual panels, note the position of the pre-drilled holes and their relative size and shape. To protect finished surfaces from damage during assembly, use a carpeted surface.

Pour remplacer des pièces manquantes ou endommagées ou pour toute autre difficulté au sujet de ce produit, veuillez composer sans frais: **1-800-668-0490 (Canada et États-Unis seulement)**

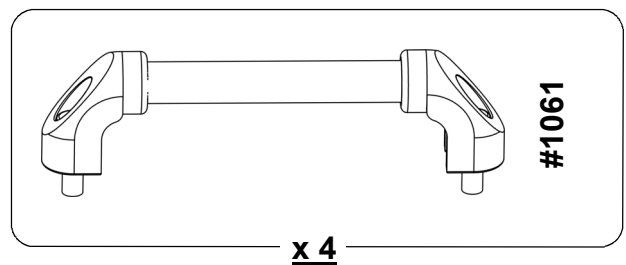

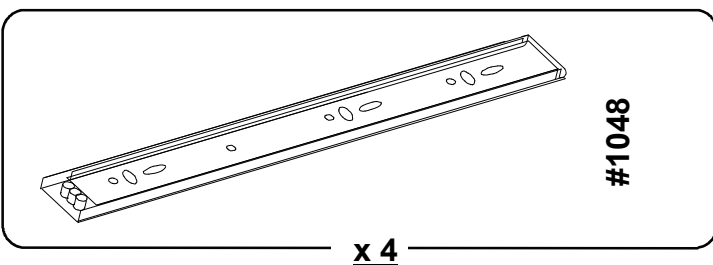

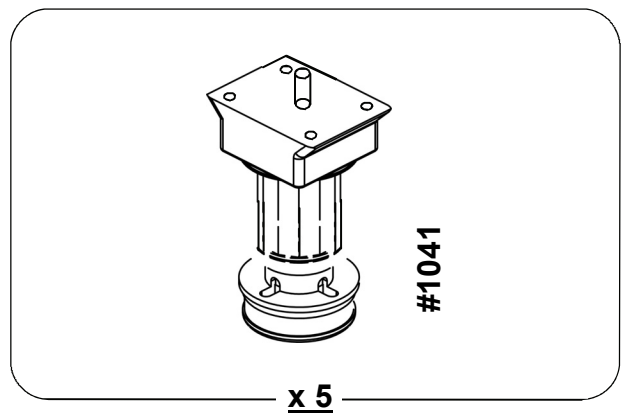

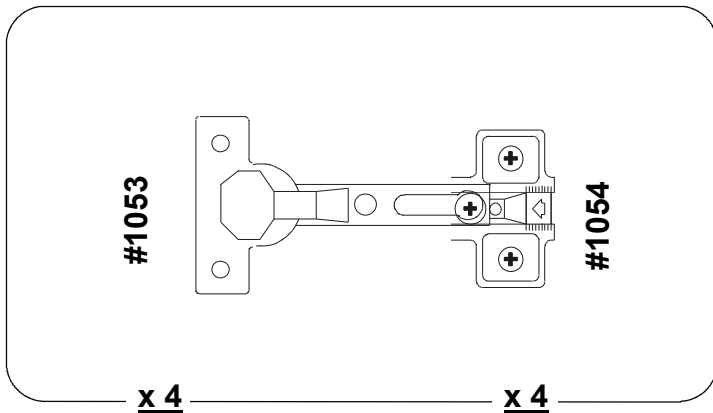

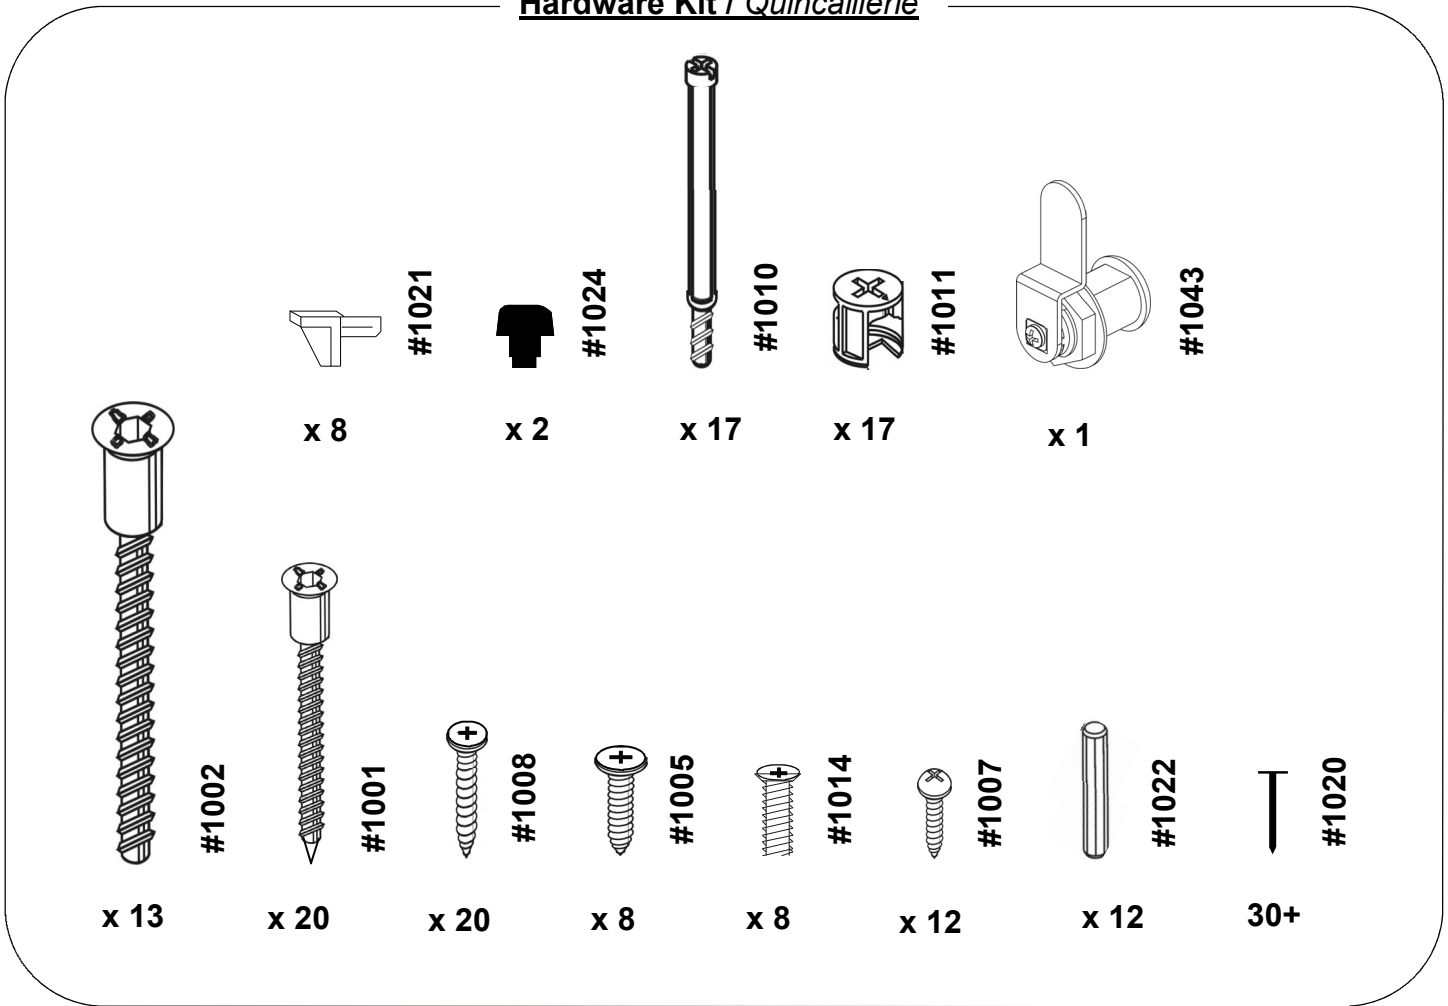

Pour contacter un représentant de service, appelez du lundi au vendredi, entre 9:00 et 17:00 hres - H.N.E.

Outils requis : Tournevis Phillips # 2, tournevis à tête plate et marteau, clé ou pinces.

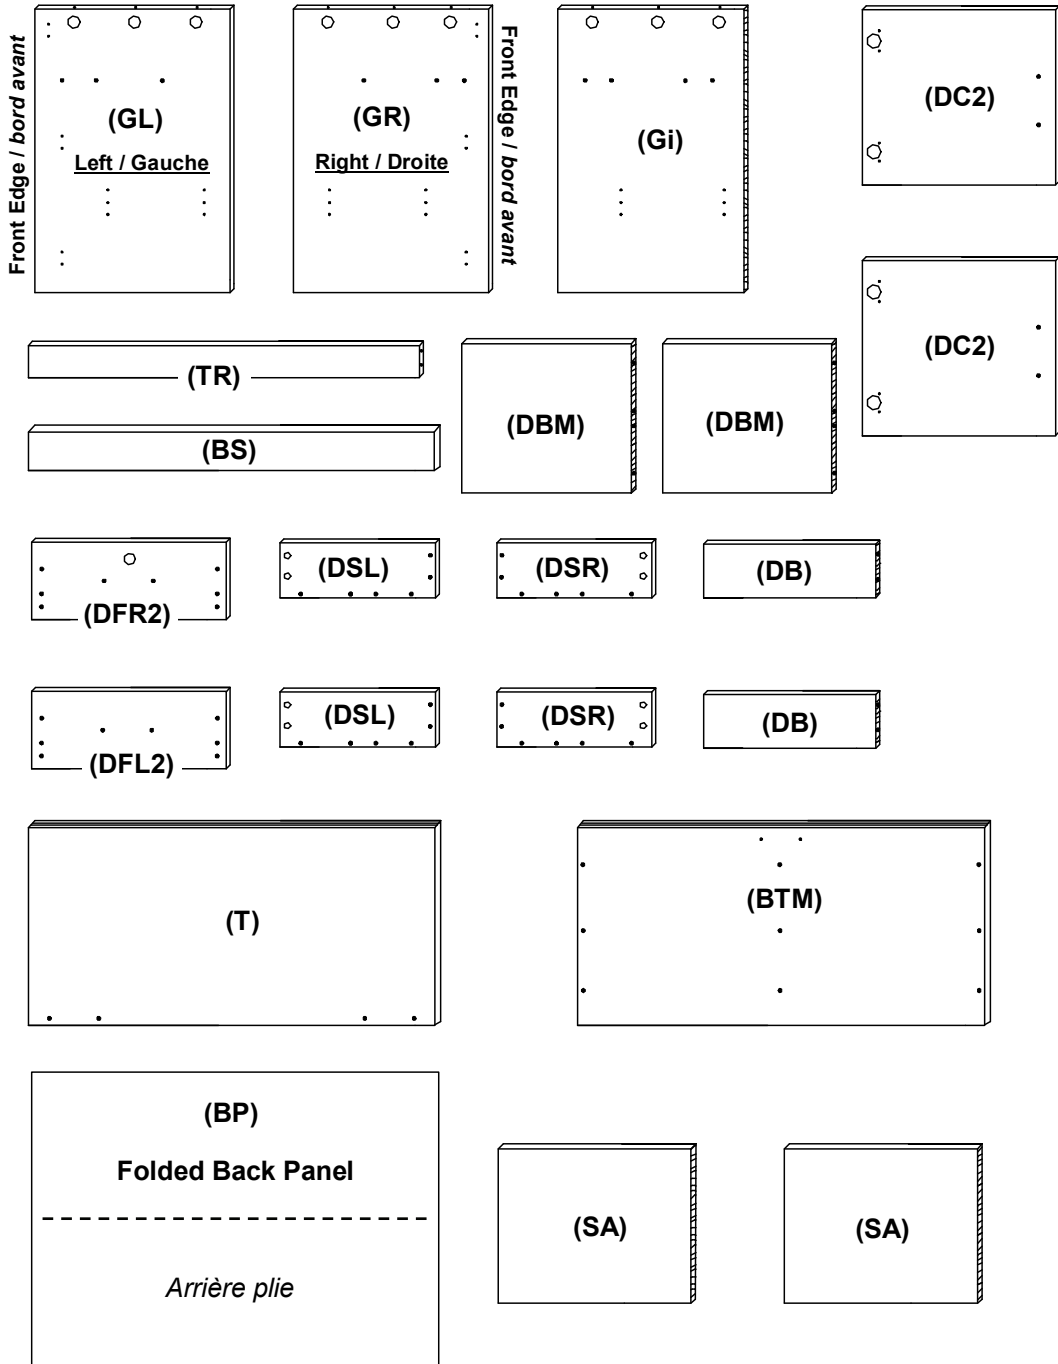

AVANT DE COMMENCER: Identifiez tous les panneaux et la quincaillerie énumérés dans la "Liste des pièces", aux pages 2 et 3. Les lettres utilisées pour l'identification des panneaux n'apparaissent pas véritablement sur les pièces réelles. Pour identifier chacun des panneaux, il faudra prendre note de l'emplacement des trous pré-usinés. Afin d'éviter d'endommager le fini des surfaces durant l'assemblage, utilisez une surface recouverte de tapis.

PARTS LIST / LISTE DES PIÈCES

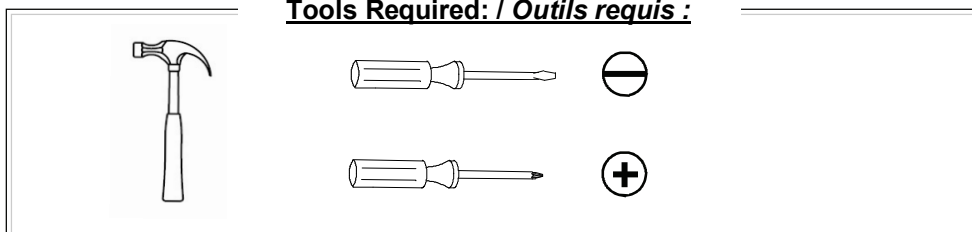

Hardware Kit / Quincaillerie

Panel Identification / Panneaux

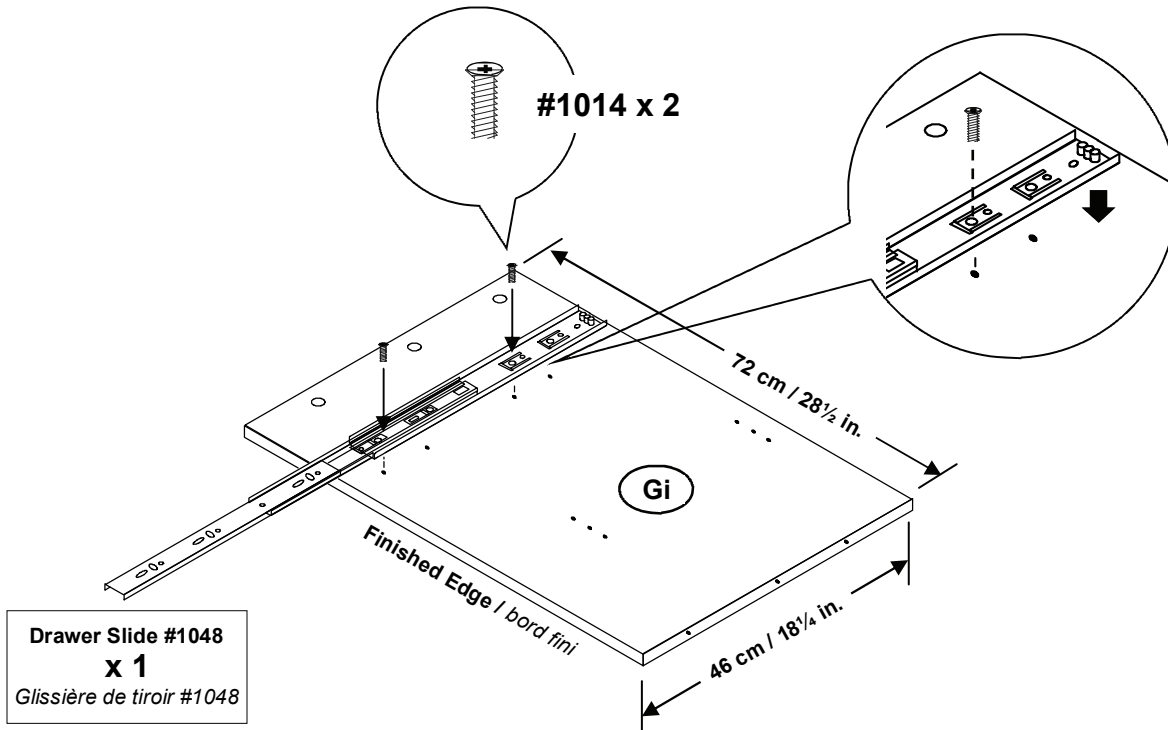

Tools Required: / Outils requis :

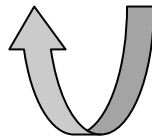

1a

- Attach Drawer Slides #1048 to **both sides** of (Gi) panel. See Steps #1a and 1b.
- On this side, attach slides using the 1st and 3rd holes on slides and panels.

- *Le tiroir d'attache glisse aux deux côtés du panneau (Gi). Voir les étapes #1a et 1b.*
- *De ce côté, attachez les glissières utilisant les 1ers et 3èmes trous sur des glissières et des panneaux.*

1b

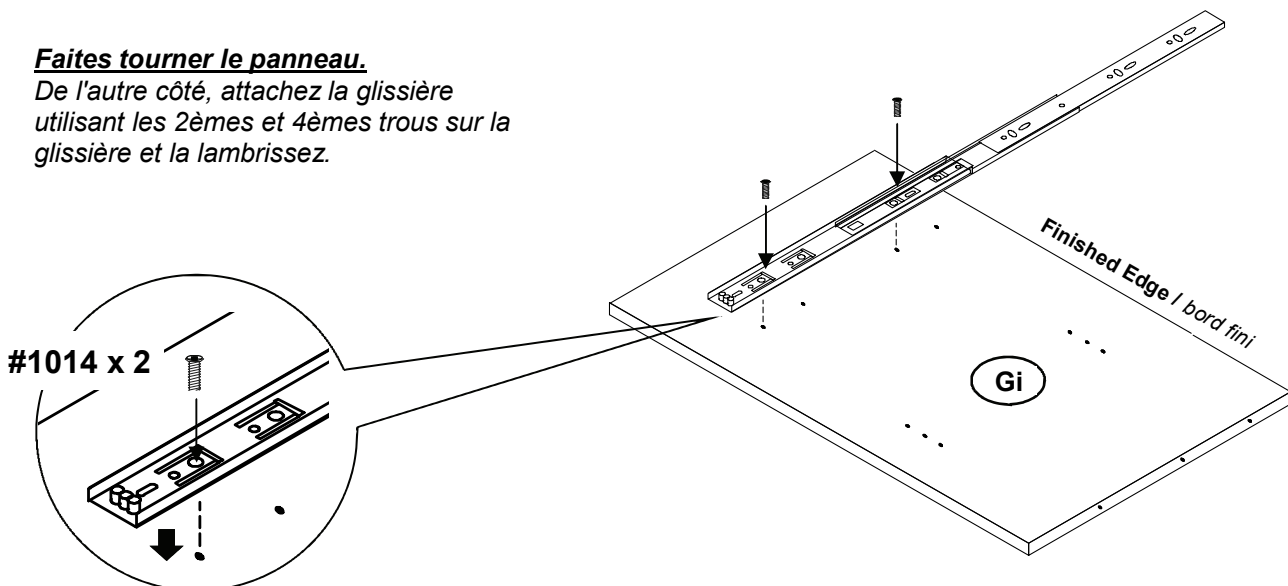

TURN PANEL OVER
Faites tourner le panneau

- **Turn panel over.**
- On other side, attach slide using the 2nd and 4th holes on slide and panel.

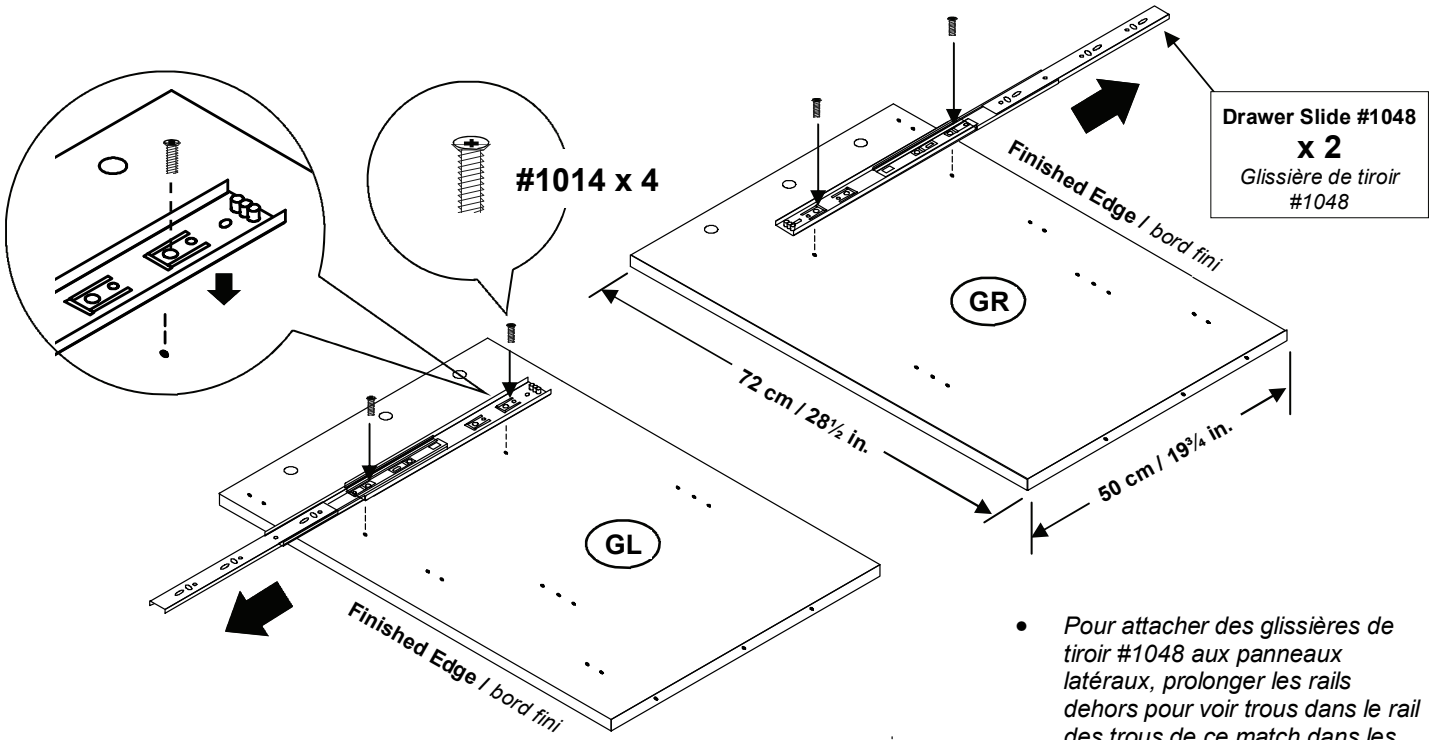

Drawer Slide #1048
x 1
Glissière de tiroir #1048

- ***Faites tourner le panneau.***
- *De l'autre côté, attachez la glissière utilisant les 2èmes et 4èmes trous sur la glissière et la lambrissez.*

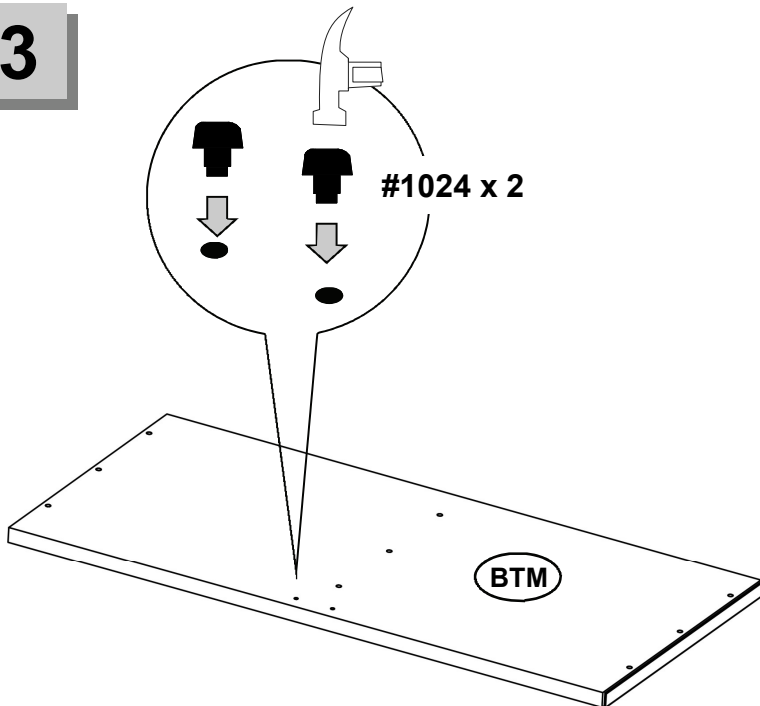

2

- To attach Drawer Slides #1048 to side panels, extend rails out fully to see holes in rail that match holes in panels. Secure with screws.

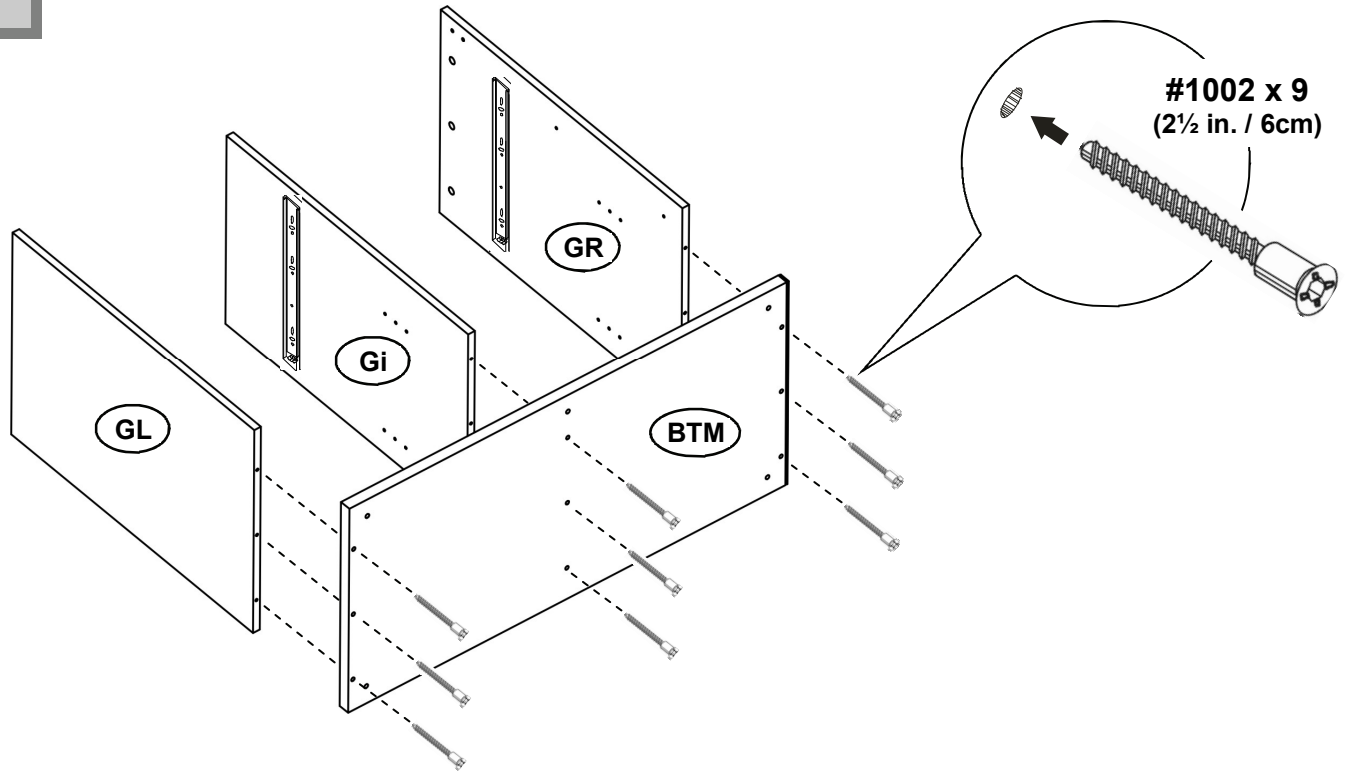

- Pour attacher des glissières de tiroir #1048 aux panneaux latéraux, prolonger les rails dehors pour voir trous dans le rail des trous de ce match dans les panneaux. Fixer avec des vis.

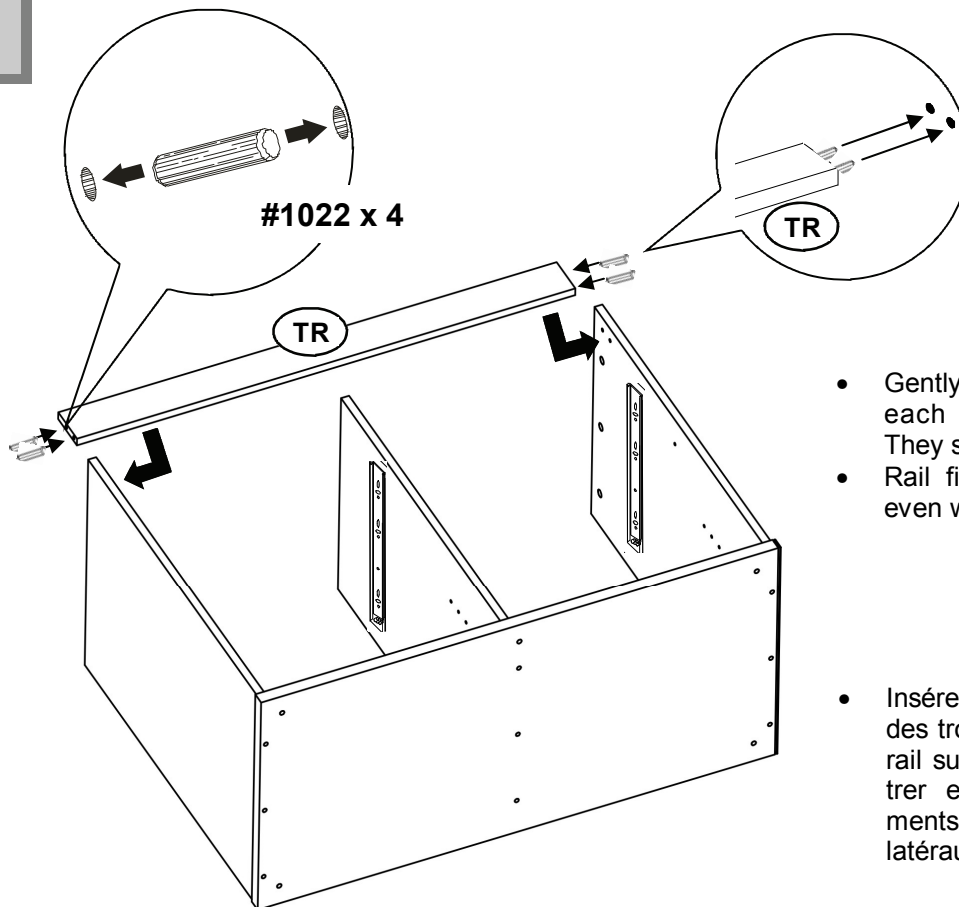

3

4

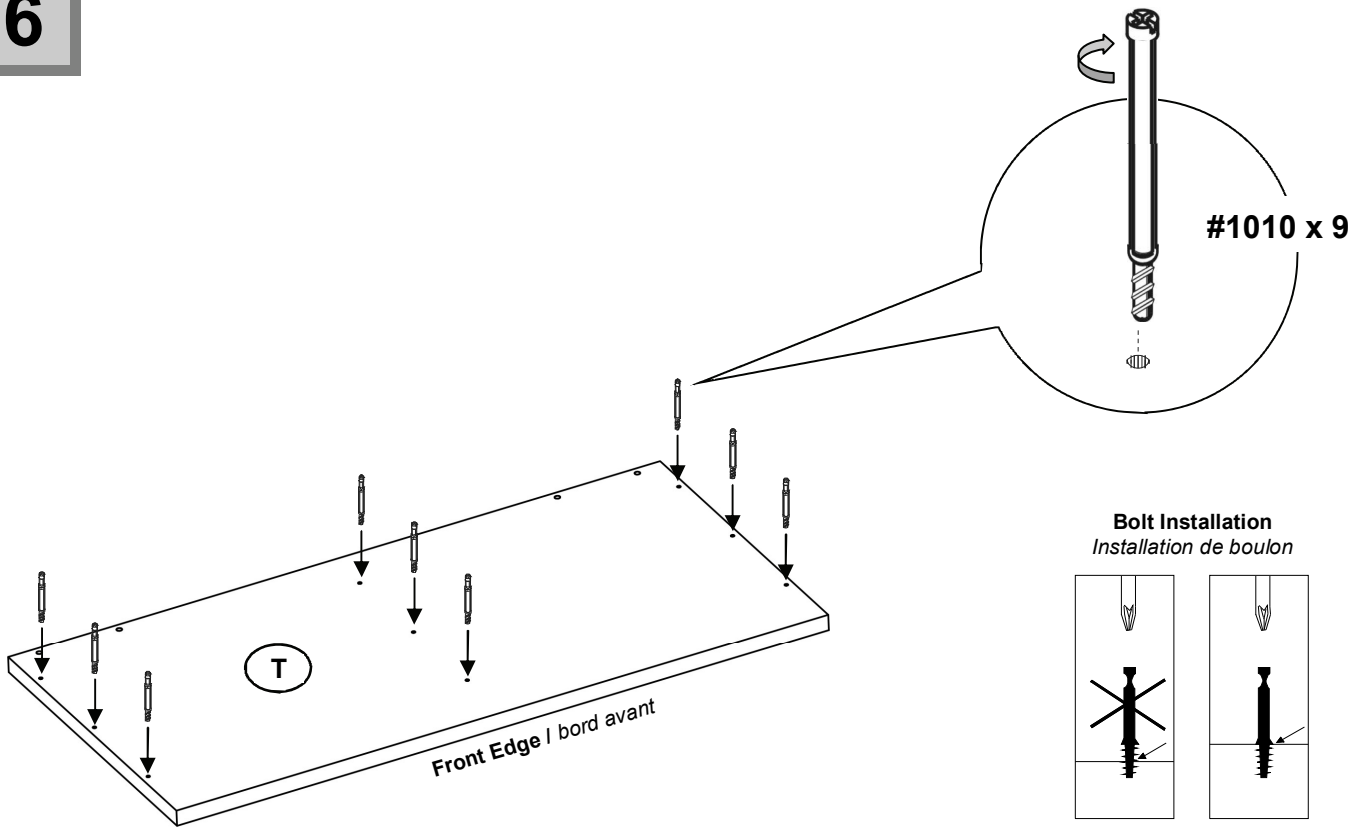

5

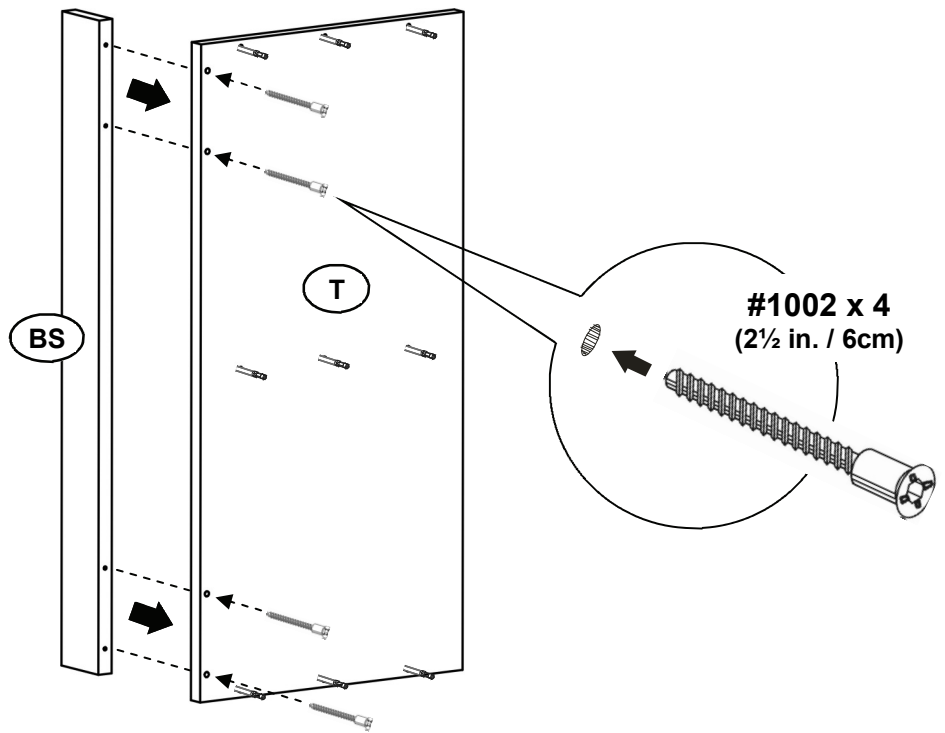

- Gently tap 2 dowels into holes in each end of Top Rail (TR). They should go in about halfway.
- Rail fits between the side panels even with the top edge.

- Insérez doucement 2 chevilles dans des trous dans chaque extrémité du rail supérieur (TR). Ils devraient entrer environ à mi-chemin. Ajustements de rail entre les panneaux latéraux.

6

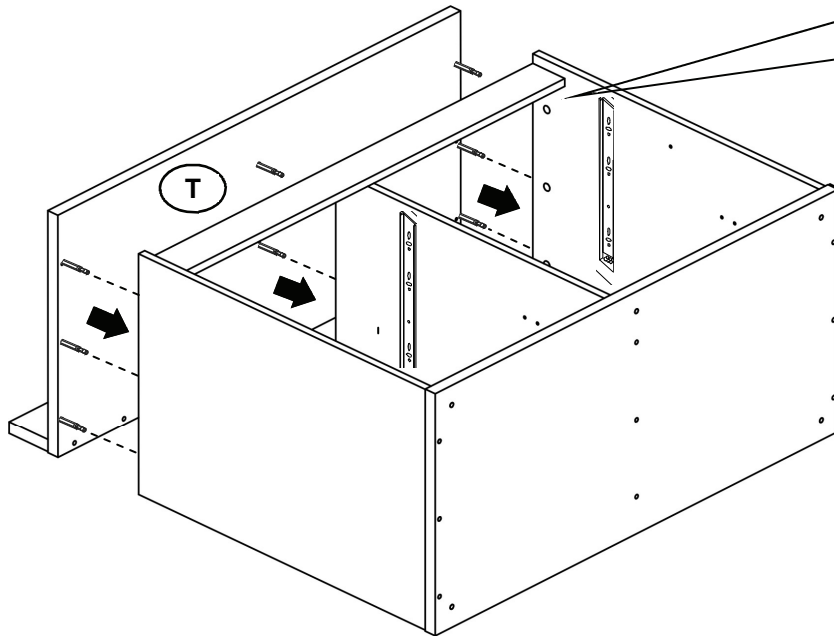

7

8

- Press cams into holes.
- Aim "arrow" on cam to hole in edge.
- Attach panels together.
- Tighten cams with flathead screwdriver.

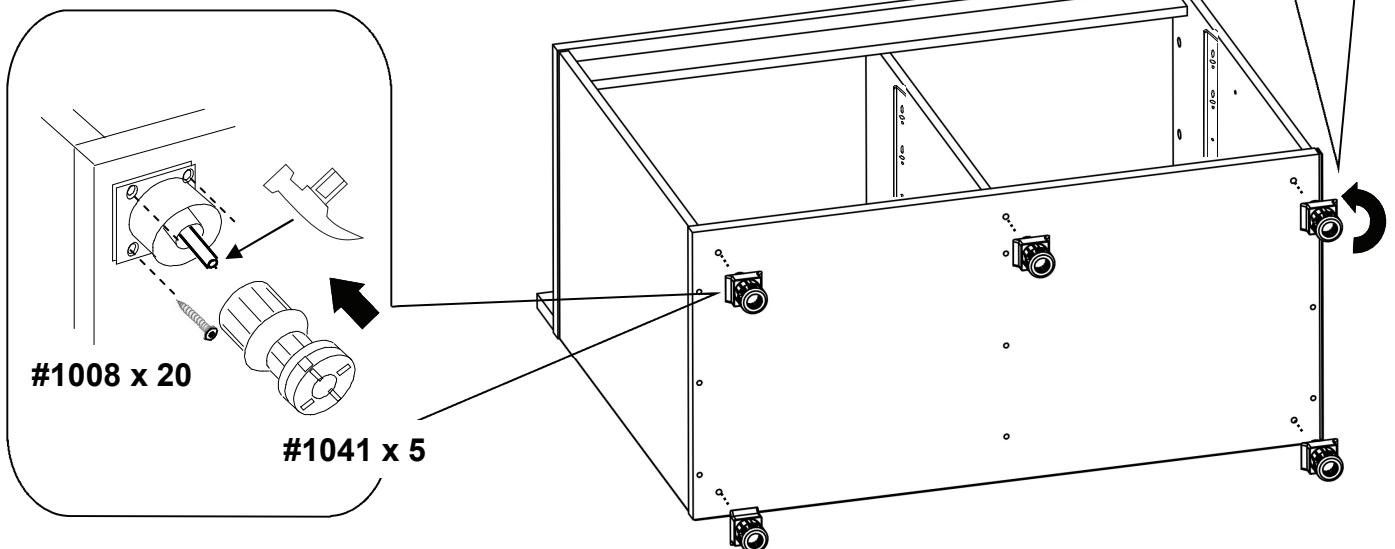

#1011 x 9

- *Pressez les anneaux dans des trous.*
- *Visez la « flèche » sur la came pour trouer en bord.*
- *Attachez les panneaux ensemble.*
- *Serrez les cames avec le tournevis à tête plate.*

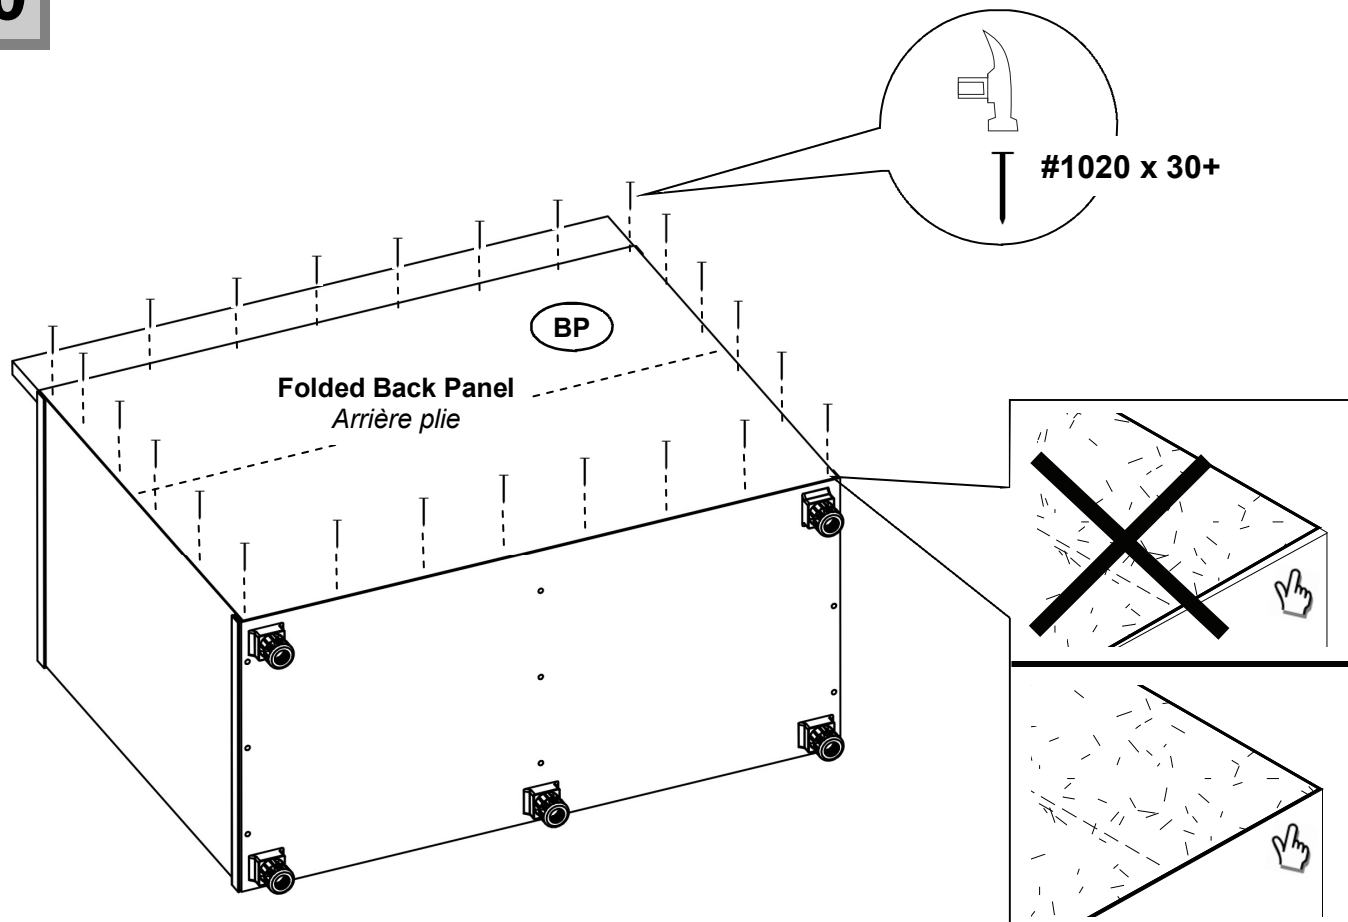

9

Turn to adjust foot height
Tourner pour ajuster la taille de pied

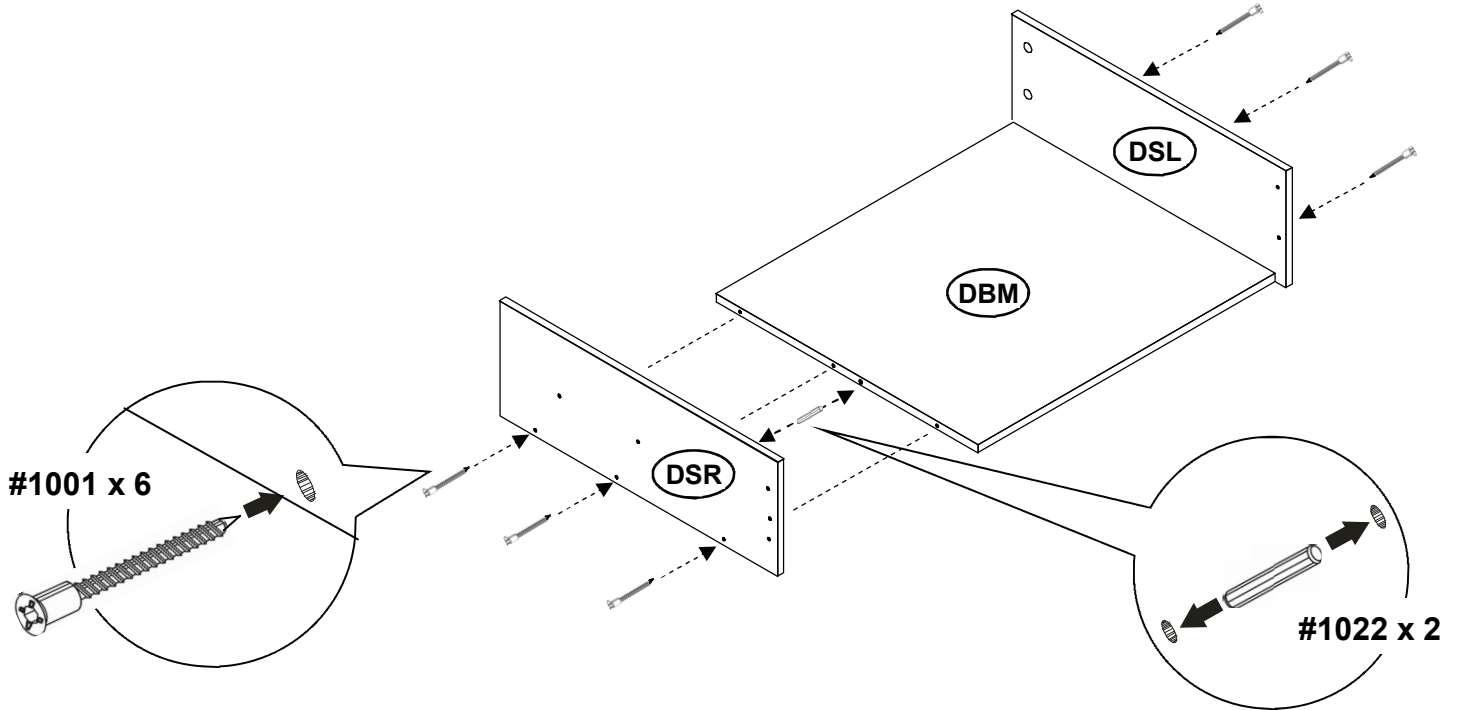

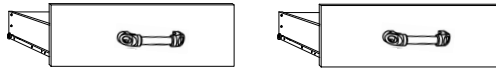

#1008 x 20

#1041 x 5

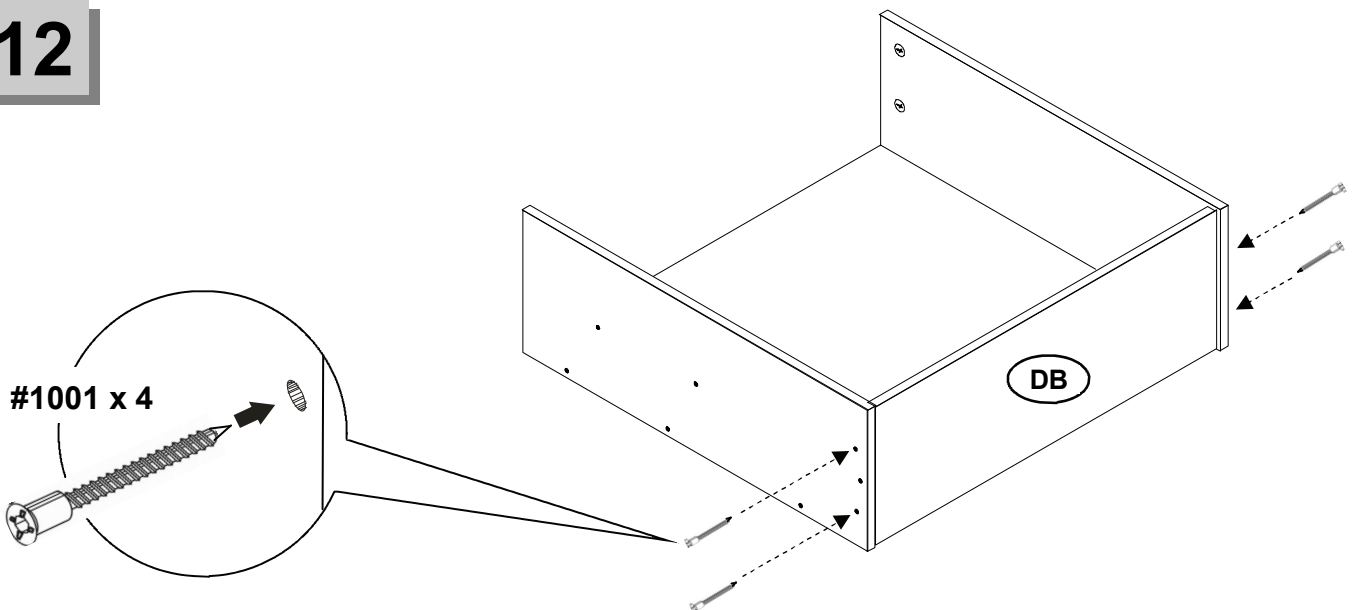

11

Assemble 2 drawers
Assemblez 2 tiroirs

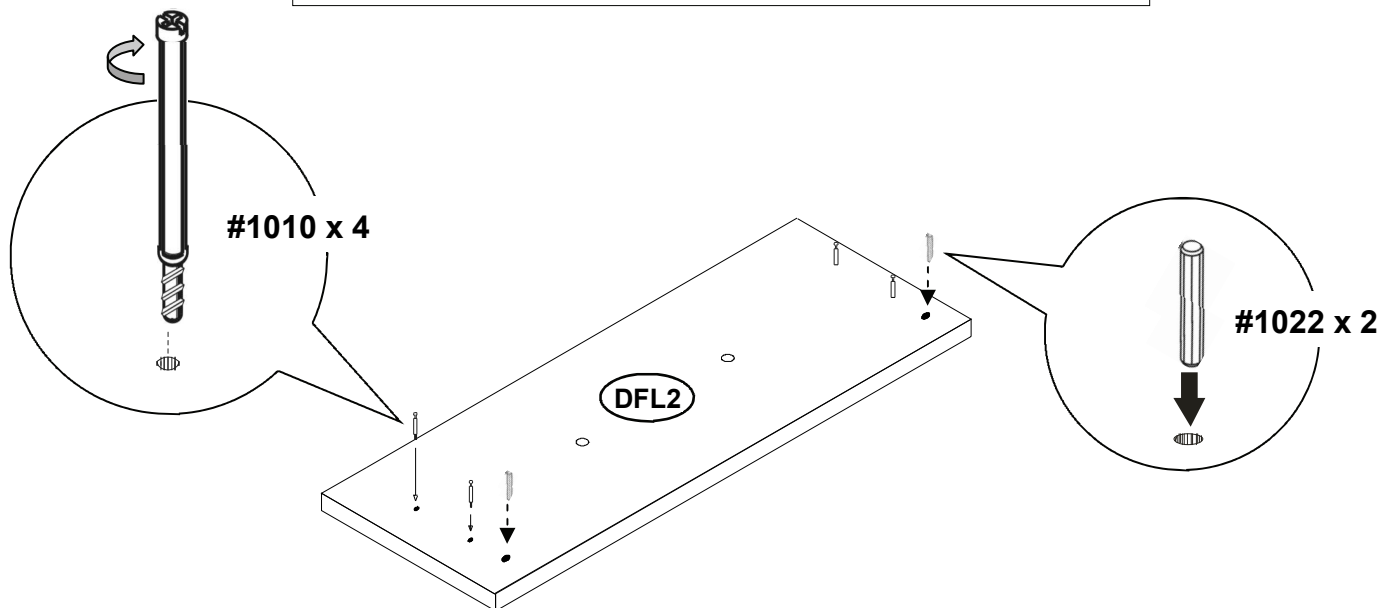

12

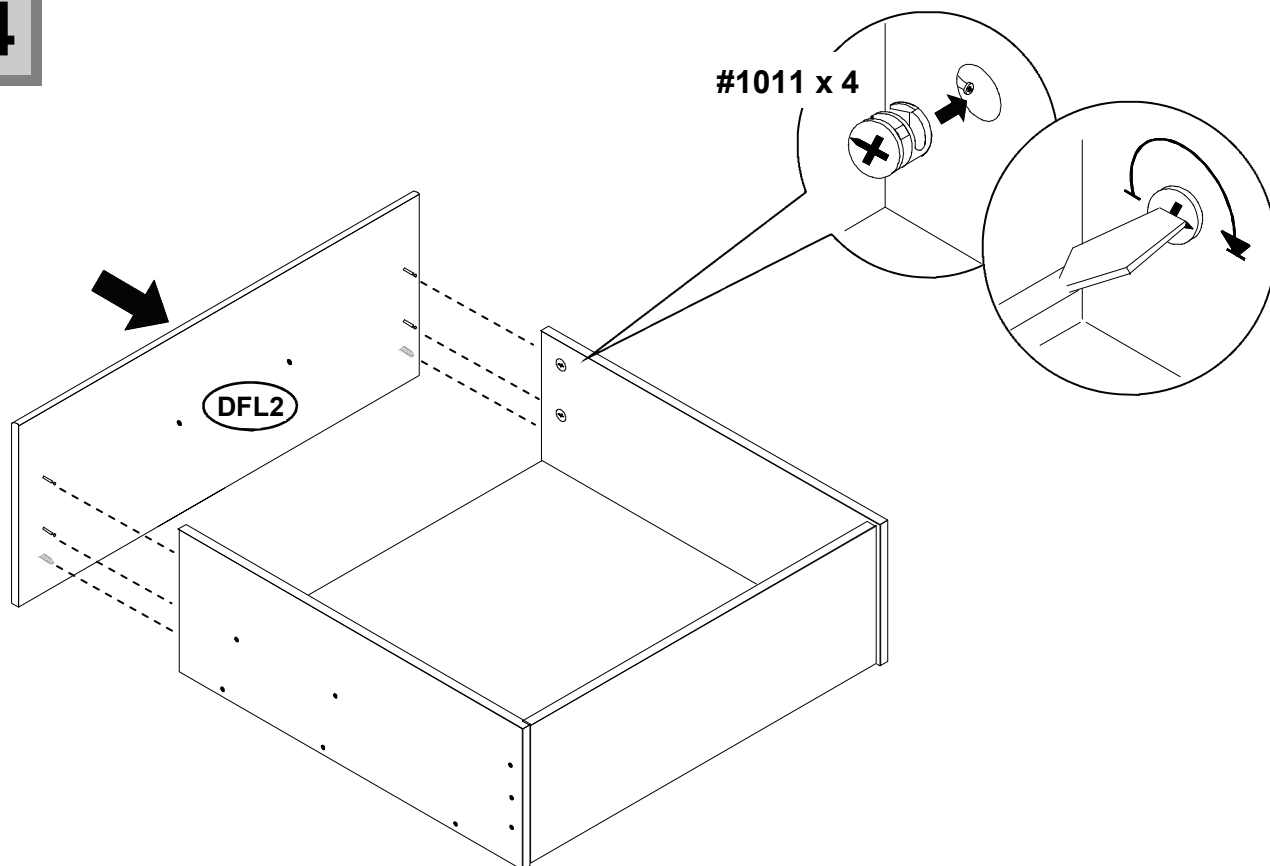

13

ATTENTION

- Only the Right drawer front (DFR) has a hole for the lock.
- *Seulement le bon avant de tiroir (DFR) a un trou pour la serrure.*

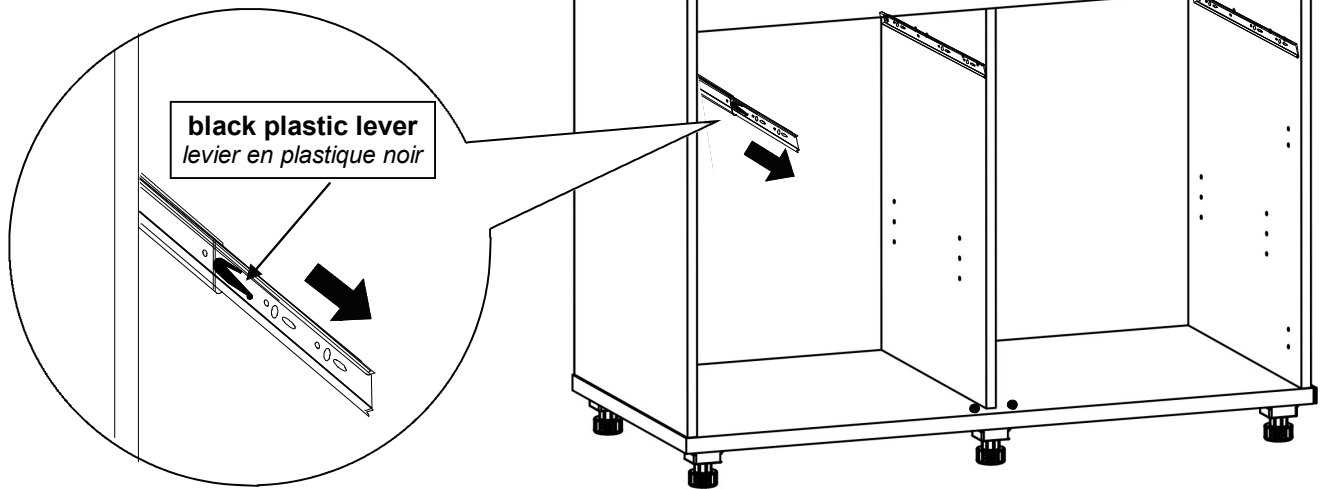

14

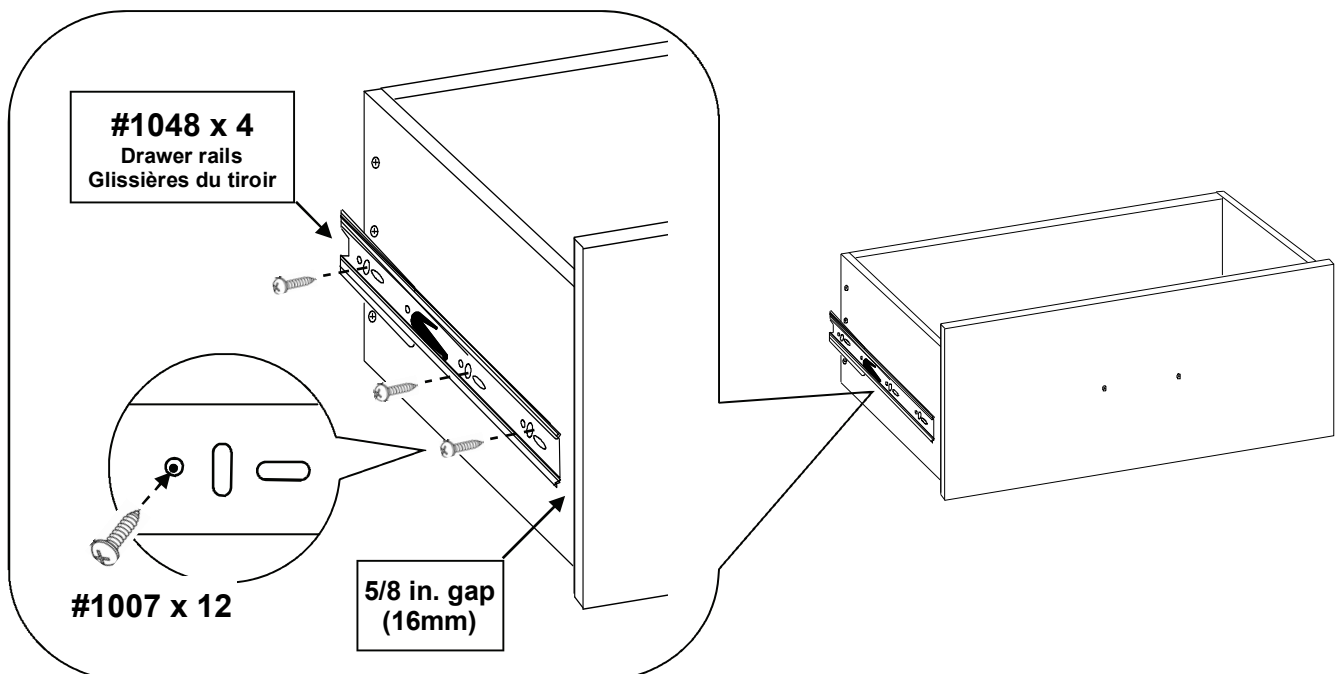

15

- Lift and stand cabinet upright.
- Pull up or push down on the black plastic lever to remove front rail from slide.
- Soulever et tenir le coffret droit.
- Tirer vers le haut sur le levier en plastique noir pour enlever le rail avant de la glissière.

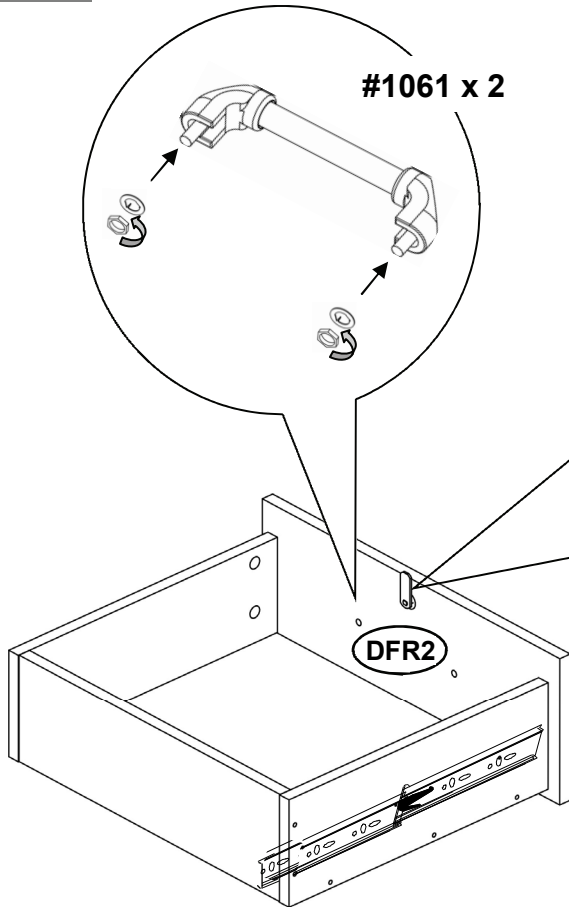

16

- Attach front rail to drawer sides and repeat with other drawer.
- Attacher le rail au côté et à la répétition de tiroir pour l'autre côté.

17
