(2) WARRANTY TERMS AND EXCLUSIONS

BuildDirect's installation instructions should be followed as a condition to this warranty, and its effectiveness. It is critical that before installation all sub-floors should be inspected and tested for dryness or moisture problem. It is in the owner/installer/contractor/designer/architect responsibility to be certain that the installer is licensed by State where the flooring or decking should be installed, and that the installer is qualified to install the flooring products and any other products associated with the flooring installation. BuildDirect accepts no responsibility for any defects or failure to the flooring or decking due to faulty installation, as well as inexperience or lack of qualifications of the installer. Flooring should be inspected before installation (test and test-lay a few boxes is recommended). If any serious defects are found prior to/during installation, cease installation immediately and notify BuildDirect about the defects as soon as possible. Should an individual plank be doubtful as to its suitability (color, finish, milling, grading, etc.) the installer should not use the plank. Whenever a board is installed, it should be deemed to be accepted by the installer and/or owner. Any alteration or repair that is not previously authorized by BuildDirect will void this Warranty.

No warranty coverage is provided for indentations, scratches, ordinary wear and tear, or other damages on finish or wood caused from/by spiked heeled shoes, cleats, or metal-tipped-sole shoes, moisture problems at site (sub-floor moisture failure, leaks, flooding, rain penetration, wet mopping), fire, pebbles/sand/rock and other abrasives, application of solvents (corrosive chemicals), heavy furniture or equipment used without providing adequate protection to the flooring, movement of structure/substructure to which the flooring is attached, extreme environmental conditions, insect infestation during usage, pets' claws/dejecta, poor workmanship by installer, commercial traffic use, failure to follow all written installation and maintenance instructions, misuse or improper alterations of original manufactured products, attempt to repair, replace, installation over radiant floor heating, or refinish prior to BuildDirect inspection.

No Warranty Coverage is provided for variations in color, grain, or markings which are ordinary to natural products or which may develop over time because of natural processes such as variant exposure to sunlight (UV). Gross reduction is not considered surface wear-through, and therefore is not covered under this warranty. Natural wood characteristics such as mineral streaks, knots, grains/color variations which do not affect the finish and structural soundness of the flooring are not covered under this warranty. All wood floors will expand and contract due to seasonal changes in moisture level, the expansion and contraction is not covered under this warranty.
