

SOLOMON GROUP / MILAN COLLECTION

FRAME

The Solomon group is made of very durable European Hardwoods, Spruce and Beech. We wrap the frame with additional foam padding which will make the sides and backs very soft to the touch.

SUSPENSION

We incorporate nine gauge sinuous **NO SAG** springs in the seating deck of this group. This is a very heavy gauge spring. You will find that each seat will have five springs stretched two inches apart, which will give the consumer years of strength and durability.

SEAT CUSHIONS

The Solomon group is beautifully designed with fixed (sewn in) seating. The seat cushions contain 2.0 density (highest quality) foam cores with a very light super soft Dacron topper for very soft comfort.

BACK CUSHIONS

The back cushions are also fixed (sewn in). You will find the back cushions to be very, very soft and comfortable as we fill them each completely with 100% super soft Dacron. You will discover that this material will envelope you and hold consistency year after year after year.

LEATHER

We only use 100% GENUINE Italian leather on all of our collections. We stock the Solomon group in a beautiful 2520 Choca color. This leather has so much character. It also is a "sauvage" leather. The shades of brown, black and dark caramel make this leather a definite winner. The leather is semi-aniline, which means we incorporate a polyurethane protective finish in addition to colorful character.

MATCHING PIECES AVAILABLE

Sofa, Loveseat, chair, ottoman

KEY POINTS

The Solomon group was our very first introduction with the incorporation of "diamond" seats and backs. This group is masculine and the comfort is exceptional. The recessed arm adds a unique characteristic to the look of the product. You will find that the tailoring is very clean and the scale of the product is absolutely perfect.
