

CHRYSALIS - Specification Sheet

by Marcel Wanders, 2011

Mounting	Free standing
Lamp (Bulb) Description	1 x 54W G5 FSD Fluorescent
Environment	Indoor
Finish	Cocoon
Technical and Product Description	Floor lamp providing diffused light. Internal structure in steel. Cocoon diffuser coated on the structure with transparent protection at the end of the manufacturing process. Base in injection printed ABS. Frieze in silk-screened glass placed at the top end of the reflector obtained by spinning. Two light sources are controlled by dual pedal switch mounted on power cable. The fluorescent tube can be dimmed, conserving the memory of the last setting before turn-off. The second button turns on/off the top lamp for the projection of the decorative frieze on the ceiling. 112 inch (285cm) power cable. The body of the fixture is lit with the 54W T5 fluorescent. The pattern is projected from the top of the fixture with a 60W T4 halogen. Both lamps (bulbs) are included.

Electrical

Emergency Switching	Without
