P.O. Box 3417 Abilene, TX 79604 U.S.A Toll 800/637-8436 * Fax 325-677-7217

ConvaQuip Ind., Inc. PLEASE READ CAREFULLY!

- Do not install this trapeze while patient is in the bed !!
- Once trapeze has been assembled, be sure leg levelers are set to level the trapeze so it does not rock back and forth.
- Slide trapeze legs under the head end of the bed making sure the trapeze legs to not interfere with the bed frame and any electrical or manual/mechanical moving parts.
- Position trapeze frame in center of the bed.
- Position boom in center locator position so it is centered over the bed.
- Adjust boom length using slider on top of boom and secure with snap button.
- Adjust chain length to the desired position, making sure quick link is secured and chain can not disengage from handle.
- Boom can swivel 0 to180 degrees. Be sure whatever position you choose, that the position pin is is seated into slot so boom will not swivel while in use by the patient.

Caution!

Note:

Position 0 and 180 Degrees are primarily used to get boom out of the way when entering and exiting the bed.

The 45 degree settings are commonly used for when the patient needs assistance when rolling over and not for entering and exiting the bed.

The 90 degree setting is commonly used to help the patient lift up or assist in sitting upright.

Assembly Instructions for Model 1000F Freestanding Trapeze Toll 800-637-8436 Fax 325-677-7217

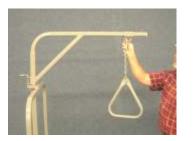

Tools needed:Rubber Mallet 3/4" Wrench & Drill

Set base in upright position.

Use rubber mallet to tap down until it bottoms out.

Unscrew the Quick-Link and hook over the Boom slider, then screw Quick-link closed

Parts: 2 Wheels, 2 Bolt Axles 4 Levelers,4 Self Tapping Screws and Socket Cap Screw

Align button on each leg and insert into top opening.

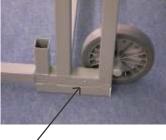

Using drill and socket cap screw provided, screw in the 4 self tapping screws.

Trapeze is designed to tilt and roll. It is recommended to remove the boom prior to moving.

Lay base down as pictured and bolt on both wheels securely.

Make sure button secures in place.

Insert Boom into slot on top of the M-Shaped piece. Make sure it bottoms out.

Trapeze shown in most compact configuration

Screw each leveler all the way in. Do not over tighten.

Insert M-Shaped part into the 3 slots. Adjust all levelers so they touch floor.

You can change positions of the boom by lifting pin

Easiest configuration for transporting from room to room.
