

Item:	Easy View™
SKU:	40110
<p><u>Description</u></p> <p>The first back seat mirror that rotates 360 degrees and pivots on a ball and socket for the perfect angle to view an infant, without moving your rear-view mirror. Attaches securely to the middle of any head rest. Easy View does not block rear visibility and does not need to be positioned directly over a child. The shallow convex shape offers the largest, clearest reflection of any back seat mirror. See your baby and see the road easily with Easy View.</p>	
Product Launch Date	Sep-11
Composition: 90% ABC plastic, 5% poly webbing, 5% EVA foam, steel, PVC	

Features and Benefits

- | | |
|--------------------------------------|--|
| • 7" diameter mirror (17.8 cm) | Largest image size of any mirror |
| • Rotates 360 degrees and pivots | Do not have to place directly over infant |
