

**This light should be installed
by a licensed electrician.**

LAMP INSTALLATION & ASSEMBLY

1. Shut off power to outlet box.
2. Unscrew canopy screws and remove mounting plate from canopy. Attach the mounting plate to the gem box using outlet box screws.
3. Make appropriate electrical connections using wire nuts. The green wire is the ground wire and must be connected to a grounding terminal or a ground wire in the outlet box. It is important that these connections are well insulated to prevent short circuits. Place connections in outlet box.
4. Secure canopy to mounting plate with canopy screws.
5. Install candelabra base bulb (not included)
6. Place shade on lamp post, inserting shade supports into holes in the lamp post.
