

Important: Always disconnect the power before installing or replacing bulb and before cleaning or other maintenance.

This light should be installed by a licensed electrician

Assembly & Installation Instructions

1. Shut off power to outlet box (Fig A).
2. Make appropriate electrical connections using wire nuts:
 - a. Connect the fixture's hot wire (black) to the black outlet box wire.
 - b. Connect the fixture's neutral wire (white) to the white outlet box wire.
 - c. Connect fixture's ground wire (green or uncoated) to the ground outlet box wire. If no ground is present in outlet box, connect fixture's ground wire to the mounting plate using the green screw (included).
 - d. Carefully place connections in outlet box.
3. Place mounting plate over outlet box and secure with outlet box screws.
4. Attach the backplate over the mounting plate (Fig B) and tighten with the back plate screw on top.
5. Insert xenon G9 bulb in socket (included).
6. Place shade onto the socket and tighten with the glass barrier.
7. Restore power to fixture.
