

Important: Always disconnect the power before installing or replacing bulb and before cleaning or other maintenance.

This light should be installed by a licensed electrician

LAMP INSTALLATION AND ASSEMBLY

1. Shut off power to the outlet box. (fig. A)
2. Attach the universal mounting plate to the outlet box using outlet box screws.
3. Determine the height at which the fixture is to be hung. Screw stem sections together to achieve desired length.
4. Connect stem assembly to fixture by hooking the rings on the four posts into the ring catch.
5. Make appropriate electrical connections using wire nuts. If there is no green ground wire from the outlet box, then connect the fixture wire to the mounting plate with the green screw provided. Place connections in outlet box.
6. Attach canopy to mounting plate with canopy nuts.
7. Install A-19 bulbs. (not included)
8. Restore power to the fixture.
