

Important: Always disconnect the power before installing or replacing bulb and before cleaning or other maintenance.

This light should be installed by a licensed electrician

LAMP INSTALLATION AND ASSEMBLY

1. Shut off power to the outlet box.
2. Attach the universal mounting plate to the outlet box using outlet box screws.
3. Make appropriate electrical connections using wire nuts.
If there is no green ground wire from the outlet box, then connect the fixture wire to the mounting plate with the green screw provided. Place connections in outlet box.
4. Attach canopy over outlet box with canopy nuts.
5. Insert A-19 bulbs. (not included)
6. Connect fixture to canopy by pushing thumb screws through the large opening of the keyhole slots and turning clockwise until locked. Fully tighten the thumb screws.
7. Restore power to fixture.
