*A personal note from the creator of* S A N C T U A R Y

We are all living in a busy world. We're harried and rushed and running about managing our lives, jobs, and taking care of family. We are constantly checking our smart phones, cell phones and email. At the end of the day, we need a respite from the world, a place where we can relax and get centered. We need a home where we can be inspired. I believe it is a unique privilege to create a sanctuary in your own home. In designing the Sanctuary Collection for Hooker Furniture, my desire was to help you create a tranquil space for your home that exudes a peaceful calm and grace, almost like a weekend retreat, or a resort vacation space. When you walk into your home at the end of that long day, you will be delighted and your spirit will be renewed. With Sanctuary, you can put together a soft and serene backdrop for your life with pieces of timeless design rich in historical reference, but updated and reinterpreted for today. Sanctuary includes a range of styles and finishes that move easily from California villa to Chicago loft to Carolina coastal cottage. Each piece has its own story to tell. One item may have been inspired by the Mediterranean region, while another got its inspiration from the British West Indies, Swedish countryside or urban America. Just as your whole life is a work in process, so your home can become a collected labor of love that reflects what matters most to you. Sanctuary's seven eclectic finishes exude a natural, time worn patina in beautiful colors like drift, with an antique character and a color inspired by driftwood; dune, a neutral that looks as if it has been painted and worn over several generations; ebony, a hand-rubbed black finish that gives you drama and high contrast; and beach, offering a feminine sun-bleached cherry look in mellow, soft tones. Finally, to further enhance the eclectic nature of Sanctuary, we give you sparkle and light and a bit of bling in a selection of mirrored accent pieces. My genuine hope is that your soul is nurtured while living with the beauty of Sanctuary, as much as mine was in the joy of designing it for you.

# QUALITY CUES

What to look for in finishes, drawers and wood furniture construction

## Quality from Start to Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

## Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability
- Full extension wood-on-wood or metal glide drawer systems operate smoothly
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Night Stands offer receptacles and touch lights under the case.

## Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

We strive to provide an accurate representation of our finishes but due to changes in lighting and printing limitations, some color variation is possible. To determine the exact color of a finish, we suggest you visit a Hooker Furniture Retailer to see the actual product.
