Bench Dimensions:	12" long x 9" wide x 7.75" high
Piano Weight:	17 pounds
Materials:	Hardboard

Product Description:

Schoenhut's Elite Spinet is a musical instrument of the highest quality. It is certain to enhance your child's love of music with its endearing, melodic tones. Chromatically tuned, the lovely chime-like notes are produced by little hammers striking precision-ground, German steel music rods (versus the conventional taut wires used in full-sized models).

Schoenhut's patented Learning System, with its play-by-color teaching method, makes playing simple and fun. A removable color strip fits behind the keys to guide small fingers from chord to chord. The chart also works on adult keyboards, since keys on Schoenhut® toy pianos are of corresponding width. This teaches children proper "finger stretch" from the very beginning. The accompanying Songbook contains a collection of familiar tunes. This Learning System has been specially designed to build a child's confidence and develop basic playing skills.

Schoenhut Piano Company: Leader in the World of Toy Pianos Since 1872
