

Ketcham Medicine Cabinets & Accessories **Product Care**

The following cleaning solutions are recommended to clean your medicine cabinet mirror. Apply the solution to a soft clean rag first, to avoid spillover onto the mirror edges or back of the mirror. This will prevent premature mirror corrosion.

1. Vinegar-water solutions (less than 5% vinegar).
2. Ammonia-water solutions (less than 5% ammonia based). This solution is only to be used if they do not contain ANY alkali, as this will cause mirror spoilage.
3. Alcohol based solutions (less than 5% ethyl, methyl or rubbing alcohol solution).

Do not clean your medicine cabinet mirror with any knives, scrapers, emery cloth, scouring sponges or any abrasive materials. Do not use alkali or acid cleaning solutions, as this will damage the mirror.
