Portable Parallel Straightedge Boards

Portable drafting board with a built-in parallel straightedge for all kinds of drawing and drafting applications. Great for students and those who need an accurate drawing tool but don't have space for a drafting table. Aluminum straightedge with knurled finger grip in anodized sand-blasted black finish, equipped with clear acrylic inking edges. Foldaway heavy-duty legs with dual snap lock mechanism, securing legs in upright or folded positions. Convenient foldaway comfort handle for ease of transport. Rubber gripping track under board to position PXB over edge of table for close-up and convenient working angles. Dual lock braking mechanisms with fine tuning adjustment knobs to secure straightedge into any desired position. Metal side brackets and spring tension crosswire parallelogram insure parallel motion of straightedge. 3/32" clearance under straightedge enables working with cutting mats, illustration/mat board, and more. Compact, folding design makes transport or storage a breeze. No assembly required and ready to use! Phthalate-free and lead-free components.

Deluxe Boards with Straightedge and VYCO Board Cover

Durable phenolic straightedge blade is equipped with clear acrylic inking edge and nylon bearings for smooth motion and even support over entire work surface. Blade remains parallel at all times, gliding smoothly up and down on guide wires. Work surface is protected with a layer of pliable VYCO board cover. Foldaway heavy-duty legs with dual snap lock mechanism, securing legs in upright or folded positions. Convenient foldaway comfort handle for ease of transport. Rubber gripping track under board to position over edge of table for close-up and convenient working angles. Compact, folding design for ease of transport or storage.

ALVIN®

Lightweight Portable Parallel Straightedge Boards

All the features of PXB boards but in a lightweight, easy-to-carry version. Made from lightweight LB series boards that have unfinished wood veneer surfaces top and bottom, aluminum side edges, and hollow honeycomb interior. Solid wood edges and center cross frames provide strength and rigidity and are strategically placed to support the handle and legs.
