Revised  
11. Sept. 2008

**WARNING: - DISCONNECT POWER BEFORE INSTALLATION. - FIXTURE TO BE INSTALLED BY A CERTIFIED ELECTRICIAN. - INSTALL IN ACCORDANCE WITH THE NATIONAL AND LOCAL ELECTRICAL CODES. - TAKE GREAT CARE TO AVOID SCRATCHING OR CHIPPING THE GLASS WHEN CARRYING OUT THE OPERATIONS BELOW**

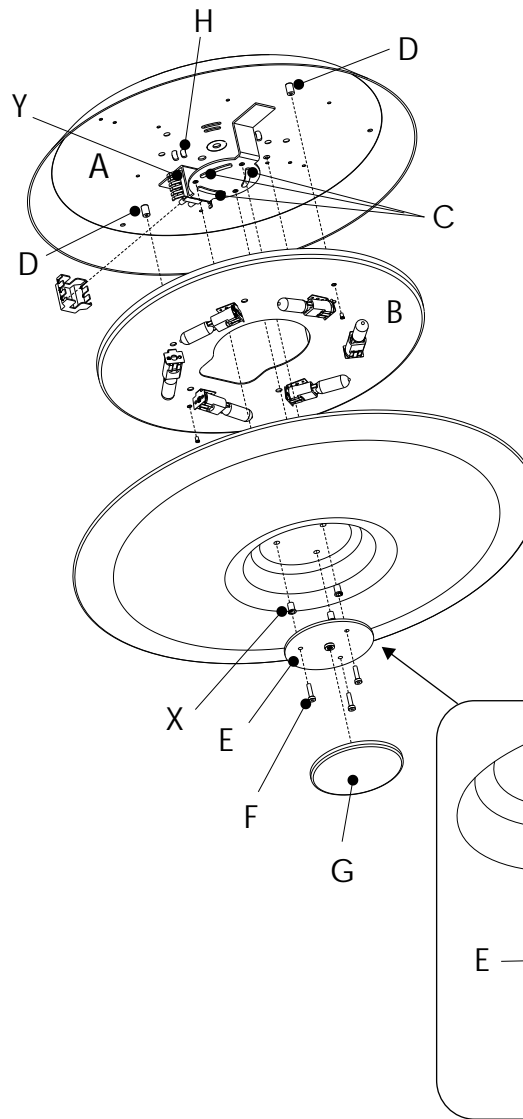

1. Install fixture "A" by to the J- box, the "H" slots provided.
2. Halogen version: remove the cover-reflector "B".
3. Make electrical connections to supply wires. Take care to respect the correct polarity.
4. Replace the cover reflector "B" on the two corresponding seats "D". Then insert bulbs and make a working test.
5. **For the fluorescent version:** place the circuline bulb into the lampholder "J" and take care to clamp the fluorescent tube inside the two plastic clips "Z".
6. **Diffuser Installation:** First of all insert the plastic bushing "X" into the three glass holes.
7. Place the diffuser on structure matching the three holes with the corresponding "C" treaded holes on structure. Than place the disk "E" and lock it with the three "F" screws provided - by the allen wrench provided. Take care to tighten moderately till get the full contact of both the surfaces.
8. Place cover "G" on the middle magnet as shown. Restore power.
