- Automatic: sprays at dusk and dawn
- Fast Results: kills on contact
- Effective up to 300 square feet

**SKEETER  
DEFEATER**

# What Is It? | Features/Advantages

## Proactively Attacks Mosquitoes Every Day

- Kills on contact
- Daily treatment whether you're there or not
- Covers up to 300 square feet

## DUSK/DAWN® Sensor

- Automatically sprays insecticide when mosquito activity is highest - at dusk and dawn
- No timers - automatically measures sunlight every day to spray at precisely the right time.
- Allows for hands-free operation
- Patent-pending technology

## Covers up to 300 square feet

- Sprays optimal level of insecticide in only four seconds
- Covers 360 degree around unit
- Perfect for patios, decks and many outdoor settings

## Portable and Adaptable

- Take it with you- camping, hunting, on the deck, RVing, ...
- Blends into any yard décor
- Lightweight and small, perfect for any yard

## Convenient

- Runs on four AA batteries
- No additional electricity required
- Easy assembly - set up in seconds.

## Cylinder Refill Unit | Don't Forget the Ammo!

- Skeeter Defeater Refill (CRU) lasts up to 33 days when used as directed\*
- SKEETER DEFEATER Dispenser only works with proprietary cylinder
- Contains pyrethrin, a botanical insecticide
- Fast results - kills on contact

## Why use Pyrethrin?

- Great flushing power to expose insects, plus a very fast knockdown and kill effect
- Botanical, not synthetic
- Highly effective against insects at very low concentrations
- Broad spectrum of activity: mosquitoes, flies, gnats and wasps
- Minimal insect tolerance even though it has been used for centuries
- No annoying odor - no fragrance added
- Disperses quickly and does not accumulate
