**Congratulations**, you have purchased one of the finest brass torchieres available on the market today. Complete with safety features such as a fully enclosed bulb compartment and a tilt switch, this torchiere comes with peace of mind.

The following parts are included with the torchiere:

1. Torchiere Glass Shade
2. Torchiere Glass Shield assembly (including finished knob and white plastic washers)
3. Allen wrench for Torchiere Glass Shield (packed inside bulb box)
4. 150-Watt frosted Bayonet Base Halogen bulbs, 3 each.

**Note of Caution:** The recommended replacement bulbs for the torchiere on this fixture are 150-Watt Osram Bayonet Base Halogen bulbs. Use of other brands of unknown quality may cause a risk of overheating.

## CARE INSTRUCTIONS

Use only a soft, dry cloth to clean. If necessary, a slightly damp, soft cloth may be used to spot clean.

Do not use common household cleaners or brass cleaners on lamps or fixtures, as the lacquer on the outside of the brass may be damaged as a result.

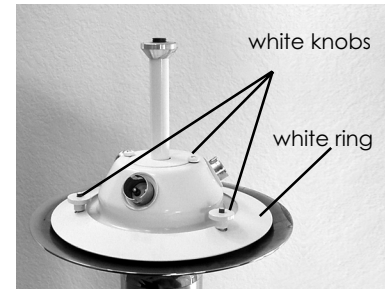

Enjoy your new Holtkötter lamp.

## ASSEMBLY INSTRUCTIONS FOR

### Torchiere 2573/3

#### INSTALL THE TORCHIERE GLASS SHADE AND BULBS

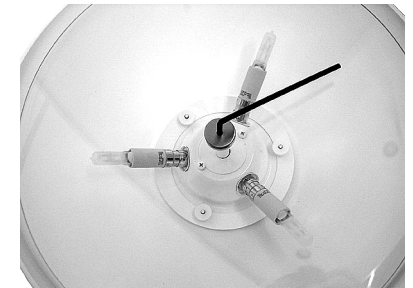

1. Unscrew the three white knobs and remove the white ring.

2. Install the glass shade, replacing the white ring and tightening the three white knobs hand-tight. Be sure not to overtighten the knobs.

3. Being careful not to touch the bulb envelope with your bare hands, install the three bayonet base bulbs provided. Push the bulb into the socket and turn clockwise.

4. Place the glass shield assembly over the center stem of the torchiere, concave side up. Tighten with the allen wrench provided. Your torchiere is now operational.
