

#75648 Clock Table

1. Connect legs. Insert two prongs of leg into corresponding slot on the piece that holds the clock. Do this for all three legs.
2. Hand-tighten bolt that is already in place to secure each leg.
3. Attach ring to all three legs. The metal rod will fit into the slot near the bottom of each leg. Just press it all the way in.
4. Use a wrench to finish tightening the bolts from step 2.
5. Place the round glass on top of the table.
