Peter Pepper had a vision: accessories designed to enliven the work environment and assist employees to be more productive. In 1952 that vision became a reality. ✨ The mandate was clear: the strength of this vision must start by demanding the highest caliber of design, producing an inspired product line offering unparalleled selection. ✨ Peter Pepper Products has consistently delivered high quality products, identifying real solutions and meeting the price specifications of your most complex problems, yet never compromising the integrity of the design. ✨ But Peter Pepper's vision was also one of responsiveness and synergy. Establishing relationships based on partnership and performance, Peter Pepper initiated a new standard of attention to the client relationship, defining customer service as customer commitment. ✨ At Peter Pepper Products, we will continue to strive to maintain the spirit of Peter Pepper's original vision. ✨ Design and Performance, diversity and practicality.
