Forward and reverse cleaning and pickup

Perfect for sanitary facilities

Quicksnap Squeegee Change System

Quick Exchange Solution / Recovery System

Minimize Effort. Maximize Efficiency.

RA-320B Ultra Compact Performance
Battery Floor Scrubber.

Versatility

The **RA 320B** is the ideal machine for cleaning areas 200 to 2200 square feet. With a slim working width of 13.5", and a free adjustable handle, the **RA 320B** fits into small areas underneath counters, in narrow halls, between seating rows, and inside small stalls.

Quick Exchange Solution / Recovery System

Separate removable solution and recovery tanks provide fast fresh solution fill and clean safe waste water removal. Hygienic closed system also prevents contamination of fresh solution from recovery tank contents. Just pop the tanks off and rinse to clean - perfect for hospital or dorm rooms.

Double-Duty

Two counter-rotating brushes, two squeegees and two specially positioned sets of suction nozzles allow the **RA 320B** to clean and pick up in both forward and reverse over joints, grout, and safety floors.

No Cord Constraints

RA- 320B can run up to 40 minutes continuously on its fully charged integrated battery system. Stop tripping over cords and searching for outlets!
