- OPTIONAL OUTDOOR CANOPY TOPS AVAILABLE
- MANUFACTURED IN THE USA
- 2 TO 3 DAY SUPER QUICK SHIP for ALL MODELS
- DESIGNED AND PRODUCED FOR ENVIRONMENTAL SUSTAINABILITY

### RECYCLEPRO II DUAL PURPOSE RECYCLING RECEPTACLES

**RECYCLEPRO II** provides 20" diameter receptacles designed to collect two types of recyclables. This series includes a heavy gauge galvanized steel inner container with an aluminum bottom. Two openings in four different combinations will allow your facility to institute a recycling program with minimum space and cost.

Each opening has a separate poly bag below that is designed to expand into more than 50% of the capacity as space allows. There is no rigid metal divider between

bags. This "smart RecyclePro" product has a high efficiency factor which translates into less service and maintenance. Remember, more than one RecyclePro II unit may be used together if desired. They may be placed near a single purpose RecyclePro I or a triple purpose RecyclePro III unit. Yes, they are all part of the same family and are made to mix and match!
