Heavy-Duty #5 Grade 60 Rebar Bender and Cutter Combo.

DIAMOND®

**HTBC-16CU
 Combination
 Bender & Cutter**

"The rebar cutter can be removed for portable in-place applications"

HTC-16X Cart

This combination rebar bender and cutter is designed for the true professional contractor. The bender & cutter are both rated at 5/8" grade 60 rebar capacity. Quickly and safely bend rebar from 0 to 180 degrees. The rebar bender can be removed for ease of loading and unloading. The rebar cutter can be removed for portable in-place applications or mounted in a stationary position. Both the bender and cutter can be operated hands free with the standard foot pedal. The hand truck features 10" pneumatic tires for use on rough terrain, an adjustable handle for greater maneuverability and a storage bin for accessories. Standard electrical outlets and a toggle switch let you change operations from bending to cutting. The GFI plug is a standard safety feature. Some assembly is required; HTC-16X hand cart is shipped separately without the bender and cutter mounted. HTBC-16CU also includes a DBD-16X bender, DC-16W cutter, a steel case with six bending rollers, a #1BDL401190 foot pedal switch and a full one year warranty.
