**NET WEIGHT: 1.5 LB (680 g)**

THE ANSWER TO CLEAN, CLEAR WATER!

This product is used to lower the pH of spa and hot tub water. It is important to maintain the pH between 7.2-7.8. A high pH (above 7.8) can cause scaling and/or cloudy or colored water. This product is compatible with all sanitizers including bromine, chlorine and biguanide.

The spa water should be tested frequently with test strips.

### DIRECTIONS FOR USE

This product should be used as necessary when pH levels are above 7.8.

1. Make sure all equipment is turned off.
2. Add 1/4 ounces (1-1/2 tsp.) of Leisure Time Spa Down for every 500 gallons of spa water.
3. Turn the circulation system on for 30 minutes.
4. Re-test the water. If the pH is still above 7.8, repeat steps 1-3.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive. Causes skin burns and permanent eye damage. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

#### PHYSICAL AND CHEMICAL HAZARDS:

**IMPORTANT NOTE:** Forms sulfuric acid upon exposure to water. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area.

**STORAGE & HANDLING:** Keep dry and in original container in a cool, dry, well-ventilated place. Do not store with chlorine, bromine, or oxidizing agents. Keep container tightly closed when not in use. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

**CONTAINER DISPOSAL:** Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse container.
