

### **PURPOSE:**

Designed to shield your wall from moisture beneath any hand dryer. The brushed stainless steel brings a modern and clean look while providing effective results.

### **CONSTRUCTION:**

The Splash Guard is fabricated of 20 gauge stainless steel, #4 satin finish.

### **OVERALL DIMENSIONS:**

16" wide x 34" tall.

### **INSTALLATION GUIDE:**

The Splash Guard is installed below the XLERATOR® Hand Dryer. Double-sided tape or liquid adhesive (silicone, liquid nails) can be used to adhere onto wall. Adhesive not provided. Please see Page 2 for a more detailed installation guide.

Call **877.837.7745** for details on the Splash Guard.

1. Carefully remove protective film from **FRONT** of Splash Guard.
2. Apply adhesive or double-sided tape to **BACK** (non-film side) of Splash Guard and adhere to wall beneath hand dryer.

**FRONT**  
**Laserguard Film**

**BACK**  
**Non-Film Side**

Double-sided  
Tape

3. When using liquid adhesive, please secure Splash Guard temporarily with masking tape (or similar) until product cures. Once the adhesive properly sets (typically 2-4 hrs) carefully remove tape.

**Temporary Tape**  
(after liquid adhesive application)

**Finished Product**
