WOOD
Freestanding Stove
EPA 1100C

- EPA approved
- Ash pan is readily accessible for easy clean up
- Fully refractory lined firebox, similar to a kiln maintains the interior temperatures necessary to achieve low emissions
- Available in a rich porcelain Majolica green or Majolica brown or traditional painted black
- Primary "bottom air feed" assists in cold start ups and to revive a small, dying fire
- Large viewing area through an elegantly arched Early American cast iron door
- Optional variable speed blower and thermostatic sensor
