Contractor Grade

Anti-Slip
Tape

T rue Grip Traction Tape is an excellent choice for most general purpose applications. The tape is constructed of a durable 46-grit mineral abrasive compound for excellent longevity in both indoor & outdoor applications.

We employ the use of a solvent based acrylic adhesive system to allow for adhesion over a wide variety of surfaces, while offering good water and chemical resistance.

Our adhesive system allows for good initial bonding, yet still removes cleanly for replacement. Custom slit widths and die-cut cleats also available. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Premium Grade

Anti-Slip Tape

Gator Grip Traction Tape is our premium brand anti-slip system to help ensure an OSHA compliant workplace. Constructed from a thick PVC base layer impregnated with an aggressive 60-grit mineral abrasive compound. The backing has an aggressive acrylic adhesive system for longevity that will form a strong, water-proof bond to most any clean, dry surface while will still being temporarily repositionable during the application process.

Gator Grip is a great choice for both indoor and outdoor environments offering our highest wear resistance, weatherability. Recommended product for long term and OEM applications. Gator Grip Traction Tape is certified by the National Flooring Safety Institute 101-A "High- Traction", and meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1. Gator Grip offers excellent chemical and oil resistance for a wide variety of applications.

Our 1" grid printed line makes it very convenient for both customers and your employees to cut exact lengths without having to look for a measuring device

Conveniently printed bold marking lines every 12" on liner helps to dispense product by the foot

Super Coarse XP

24-Grit Anti-Slip Tape

Looking for the ultimate in high traction, choose our Super Coarse XP non-skid. This product has a large (24-grit) mineral abrasive surface offering a high level of slip resistance.

Super Coarse XP is a great choice for areas where large amounts of debris are present resulting in reduced surface traction. Tape is suitable for both indoor and outdoor applications and has an aggressive permanent pressure sensitive adhesive system.

Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Heavy Duty

36-Grit Anti-Slip Tape

Hheavy foot traffic and dirty work environments can clog up standard grit products with mud, oil, saw dust, liquids and grease. Our Extra Coarse Gator Grip offers a very deeply textured (36-grit) surface to continue to offer non-slip protection, even in the dirtiest conditions. Tape can even be spray painted and still maintain a anti-slip surface.

Tape is water-proof for both indoor and outdoor applications, and offers excellent hydrocarbon resistance. This tape has a very aggressive grit surface and is recommended for areas with heavy debris only.

Custom slitting and die cut shapes for OEM applications also available. Great for mud, saw dust, snow and other outdoor applications. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

Foil Backed

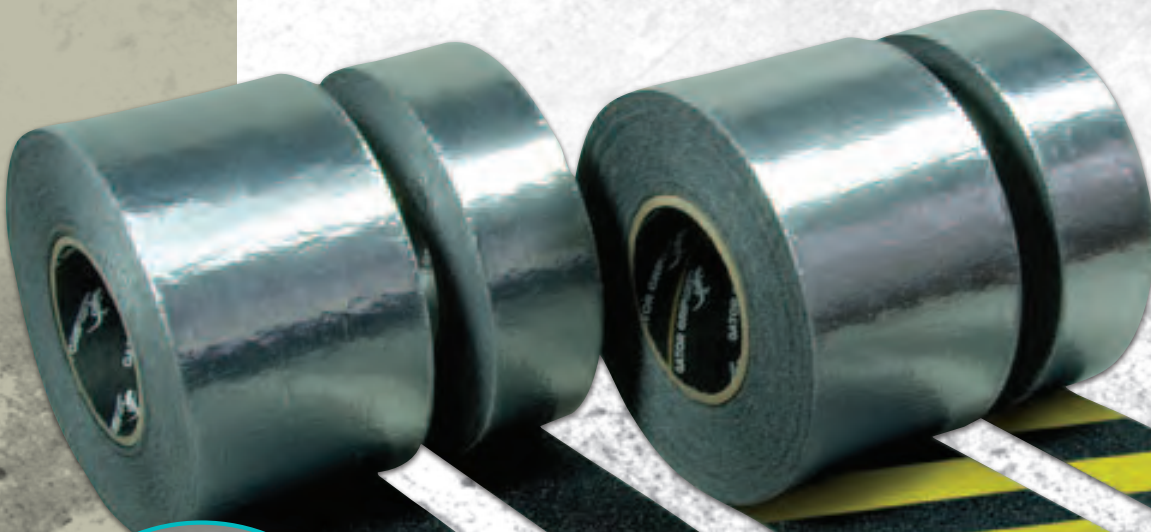

Anti-Slip Tape

Our conformable foil backed anti-slip tape is designed specifically for heavy duty textured surface and stair nosing applications. The foil carrier allows for excellent conformability and will hold its shape to most any embossed or textured surface with its aggressive adhesive.

This product works great on steel tread plate, stair nosing, uneven concrete and most uneven surfaces. Tape has an coarse 46-grit surface.

Great for indoor and outdoor applications with excellent weatherability and water resistance.

Custom slit widths and die cut applications also available. Meets or exceeds OSHA 1910.24, 1910.26 and ANSI B101.1.

'Mop Friendly'

Slip-Resistant Tape

Looking to provide an enhanced level of anti-slip protection, but still need to mop the surface for cleaning? Choose our "Moppers Friend" slip-resistant product. We have taken our premium grade anti-slip tape and modified the grit particles to allow a mop to pass over without "catching" strings.

Tape has an aggressive acrylic adhesive system that will bond to most any clean, dry surface and offers a virtually waterproof long term bond.

An excellent product choice for areas where frequent cleaning by mopping is common. Excellent product choice for the marine and boating industries.

Coarse Resilient

Slip-Resistant Tape

SoftTex coarse Resilient Slip-Resistant Tape works great in the office, plant, locker room or areas with bare foot traffic.

This product is not like bath products you would see at the hardware store. This surface has a deep embossed surface that will perform in heavier duty applications, while still being comfortable for bare foot traffic.

We recommend this product in office environments and light plant uses, it can be very easily cleaned and will not trap dirt the way normal grit products can. Can easily mop surface.

Stadium Track

'High Visibility'
Anti-Slip
Tape

Public buildings, stadiums, arenas and parking garages are major areas of concern for slip and fall accidents. Our Stadium Track Tape was developed for these high traffic, high visibility applications. The tape has a muted yellow appearance that adds a visible safety feature, and it maintains its appearance because of the black particles mixed in with the yellow surface. Even after heavy foot traffic the tape will still not look dirty.

The 46-grit anti-slip surface offers a high level of traction and durability. If public safety is part of your program, this is a great product choice. Great for both indoor and outdoor applications and offers excellent water and weather resistance. Meets or exceeds ANSI B101.1.

Aisle Marking

Conformable Tape

We offer a wide selection of quality aisle marking and pipe banding tapes. Our Aisle Marking PVC (vinyl) Tapes are made from a durable vinyl film with a rubber adhesive system that will adhere to most any clean, dry surface.

Vinyl offers a matte smooth conformable tape that is great for marking hazards on floors, walls and equipment. Commonly used in aisle demarcation, color coding and pipe banding applications.

Our complete range of aisle marking tape products are also available in the more convenient 180' format. Longer length rolls mean less roll changes, fewer roll splices and quicker application times.

All tapes are made in a wide array of OSHA colors that meet ANSI Z535.1 and offer excellent durability and chemical resistance.

COLOR	DESIGNATION	APPLICATIONS
RED	FIRE	To designate the location of protection equipment and apparatus, including fire-alarm boxes, fire-blanket boxes, fire extinguishers, fire-exit signs, fire-hose locations, fire hydrants and fire pumps.
	DANGER	To identify safety cans or other portable containers of flammable liquids, lights at barricades and at temporary obstructions, danger signs.
	STOP	To mark emergency stop bars on hazardous machines, stop buttons.
ORANGE	HAZARDOUS/BIOHAZARD	To mark dangerous parts of machines and equipment that may cut, crush, shock or otherwise injure. Intermediate level of hazard. Fluorescent orange or orange-red are used to signify biological hazards.
YELLOW, YELLOW/BLACK	CAUTION	To mark physical hazards which might result in stumbling, falling, tripping, striking against or being caught between.
GREEN	SAFETY	To mark the location of first aid and safety equipment.
BLUE	WARNING	To warn against starting, using or moving equipment under repair. Also used for designating information such as informational signs and bulletin boards.
BLACK/WHITE	BOUNDARIES	To designate traffic aisles, housekeeping markings, stairways (risers, direction and border limit lines) and directional signs.

Hazard Warning

Conformable
Tape

Our most popular conformable PVC Hazard Warning Tapes. These tapes will quickly bring attention to any workplace hazard. Made of conformable vinyl film with an rubber adhesive system, these tapes will adhere to most any clean, dry surface. Tape has a smooth, semi-matte surface. Great product for use on floors, walls, pipes and equipment.

Hazard Warning

Laminated
Tape

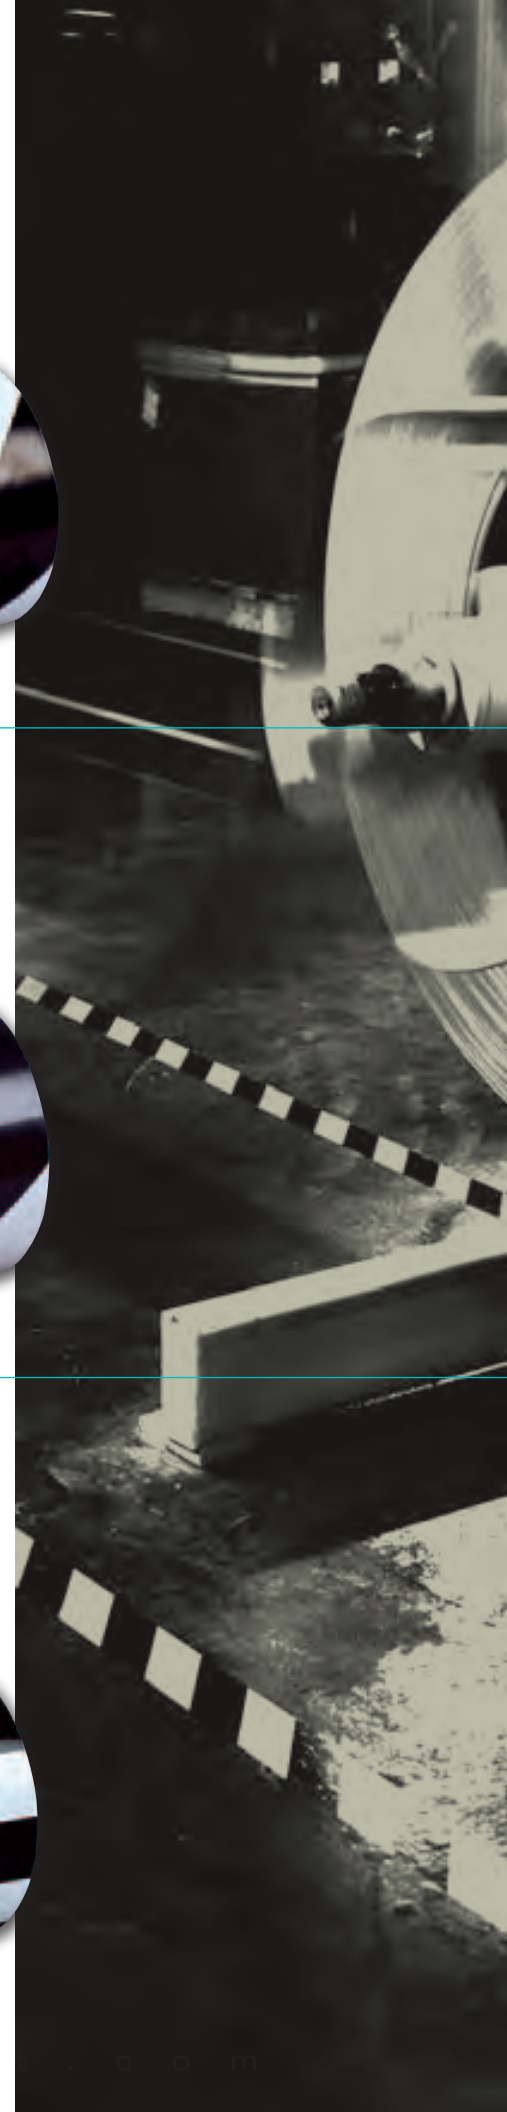

We take our PVC Hazard Marking Tape and apply a durable, clear laminating film on top. The smooth gloss finish will resist wear and is easily cleaned. The over lamination improves the ability of the tape to withstand heavy abrasion. The gloss surface also adds a premium “finished” look to your application. Rolls available in both 18 and 36 yard lengths.

Checkerboard

Laminated
Tape

A unique way to draw attention to your workplace hazard. Our Checkerboard Tape has 1” square pattern and is constructed with a PVC film with a protective clear lamination. All Checkerboard Tapes have an aggressive adhesive system that will adhere to most any clean, dry surface.

Armadillo Tape

Ultra Durable
FloorTape

In response to customer demand for a longer wearing floor tape product we have developed our line of ultra durable Armadillo tapes. These tapes offer our best level of durability for use on floors. The tape is constructed on a thick reinforced carrier with an aggressive weather-proof adhesive system. The surface offers a mild abrasive surface that is durable, slip-resistant coupled with low level reflective properties.

Tape will adhesive to a wide variety of industrial surfaces including smooth concrete, asphalt, wood and steel. Low profile design will ensure that the tape does not present a hazard to fork truck traffic or pedestrians. Tape can be easily cleaned with standard industrial cleaning machines and procedures.

Worded Floor

Safety
Tape

Worded floor tapes are a great way to effectively and permanently communicate safety messages and hazards to your employees and visitors.

These tapes are made from a totally synthetic construction for long term durability. All tapes have a slip resistant clear over-lamination to offer long-term protection to the printed messages.

All tapes provide a slip resistant surface in compliance with UL 410-COF For Floor Graphics. Custom graphics also available.

Colored Vinyl

Arrows & Dots

Our colored vinyl arrows and dots make a great choice for marking direction of travel or demarcation of hazards. Commonly used for production work flow, inventory management and pedestrian directional aids.

Arrows and dots are all made from a durable solid colored vinyl so there is no print to wear off, with an adhesive backing. Choose from a wide selection of stock colors. We also offer custom sizes and colors as special request.

Directional Flow Arrow Tape

Use our directional flow arrow tape to easily and effectively mark pipe flow direction. Our arrow tape is made from a durable vinyl base stock with an aggressive adhesive and clear over-lamination to protect the printed surface and offer years of service.

All our banding tape has a continuous print design with no white line every foot, which allows for a professional looking installation.

All colors meet the ANSI 535.1 and Z535.1 Safety Color Chart. They also comply with ANSI / ASME A13.1 standard for pipe markings including the new colors introduced under ANSI/ASME A13.1-2007.

Super Reflective

Property Markers

Our line of markers and reflectors are made with high visibility reflective for easy identification of hazards and boundaries both day and night.

Simple to install, the large head of the steel markers are great for marking hidden driveways, boating channels or unlit private roads.

The fiberglass rods are ideal for marking parking lots or snow removal areas during the winter months.

Our reflectors come in several shapes to fit flat, curved or corner surfaces with pre-drilled holes for easy installation.

Engineer Grade

Reflective Tape

Looking for increased awareness? Try our line of Engineer Grade Reflective Tapes. These tapes offer vibrant daytime visibility with reflective properties for nighttime use.

All solid color tape is rated for use outdoors for a 7-year life span. Tape has an aggressive adhesive that will adhere to almost any clean, dry, smooth surface and meets ASTM D-4956-99 type 1.

Hazard striped products have a protective lamination to ensure the printed stripe will not wear off. Tape comes with removable release liner. This product is not intended for vehicle application.

Custom printing and conversion also available. We also offer our entire range of reflective products in large format rolls. Striped product is not intended for long-term outdoor applications.

Conspicuity

DOT-C2

Reflective

Tape

Exceeds requirements of the NHTSA (49 CFR 571), and every strip carries the DOT-C2 legal certification for compliance.

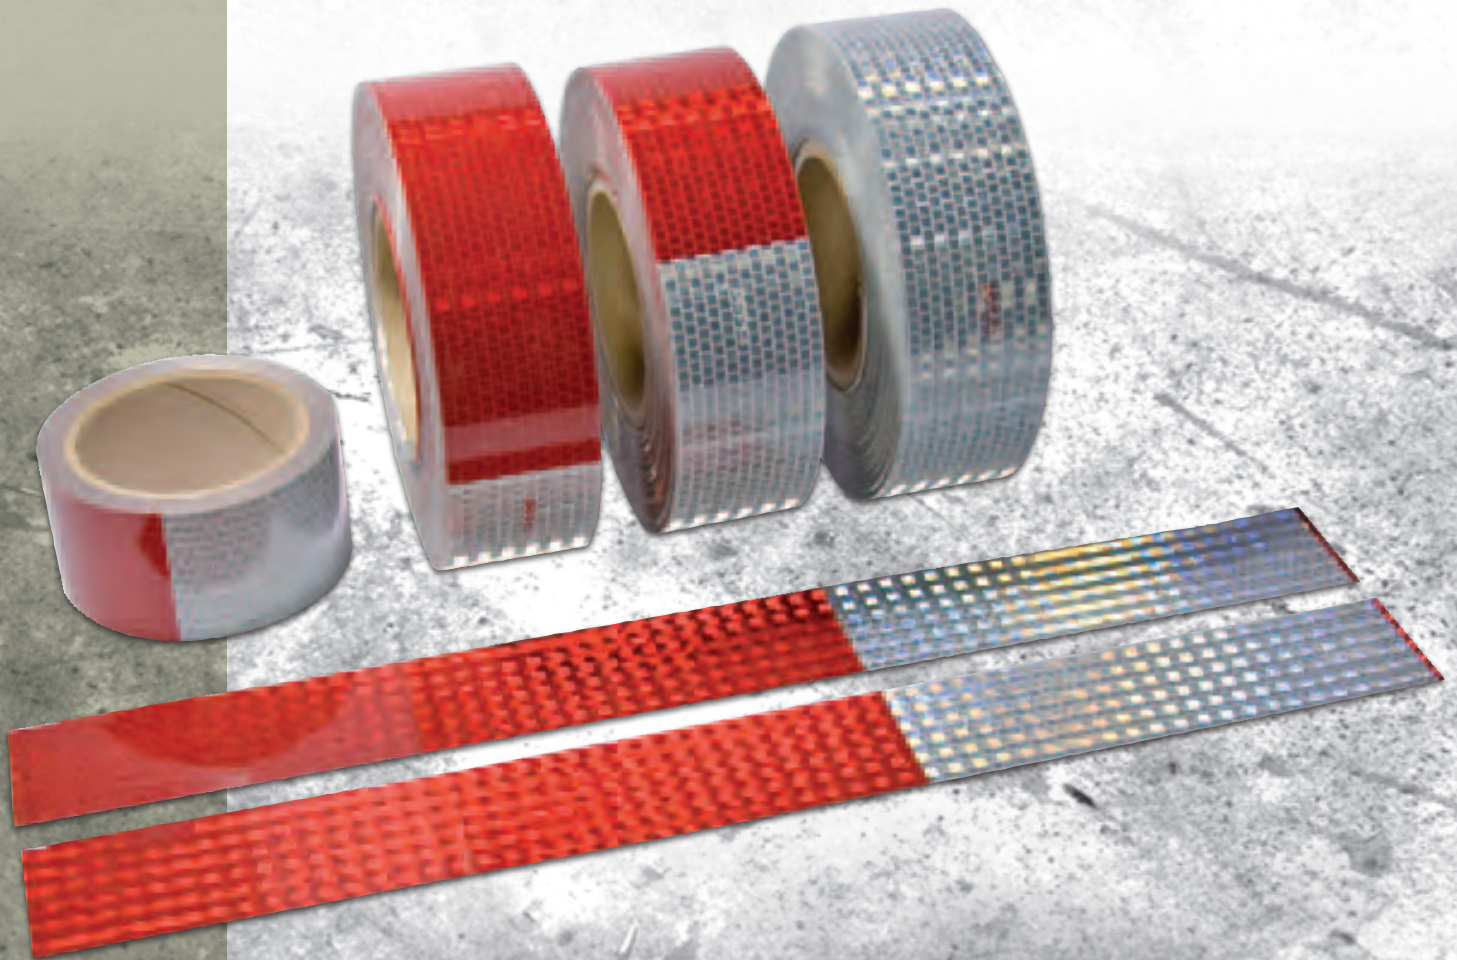

Modular pattern of reflective prisms allow it to be mounted in any position while maintaining reflective performance.

Typical brightness of 750+ candlepower.

Industry's highest visibility guidance in wet or dry weather conditions with full reflective strength from distances of 1,000 feet or more.

Easy-to-apply tape sticks to a variety of surfaces including fiberglass, aluminum and painted steel (make sure surface is clean, dry and oil free before applying).

Please contact customer service for information on our custom imprint program. We are able to add your company name or logo to any of our conspicuity products.

Reflex Reflective

Stick-On
Reflectors

Our reflectors are designed with highly prismatic lenses secured to a durable transparent resin base. Produced on a clear poly liner, the rolls are easy to work with and the reflectors peel cleanly for application.

Each reflector is marked with the SAE A DOT certification. These reflectors are easy to install and are a cost effective alternative to plastic models. Meets or exceeds SAE J592 A.

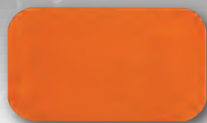

Stick-on reflectors mount to any clean surface

Low profile - can't be knocked off like molded reflectors

High Intensity

Reflective Tape

Super Brite is an excellent choice for marking anything that requires a high level of night time visibility, and a with a long term life cycle. The tape has an excellent entrance angularity and high intensity micro-prismatic surface. An aggressive adhesive system that will adhere to most any clean, dry surface. High Intensity product has a reflective value of over 4 times that of our standard engineer grade products. Intended for application on relatively flat surfaces only.

Neonbrite fluorescent reflective is the newest high visibility product from INCOM. This product not only offers the highest levels of night time reflectivity, it is coupled with an extremely fluorescent lime color that stands out in day time applications as well. The tape has an aggressive adhesive backing with 10 year durability. Product meets or exceeds ASTM D-4956 Type VIII.

SOLAS

Reflective Tape

Our IMO/SOLAS (Safety Of Life At Sea) compliant microprismatic technology offers excellent long range visibility (over 1 kilometer), typically more than 3 times that of the IMO standard.

These tapes are designed to enhance the visibility of life jackets, ring buoys, survival suits, and inflatable life rafts in marine and land environments. It is also very popular for motorcycles, bikes and other common uses due to its extreme reflectivity.

The tape is made from a pliable, thin single layer product, coupled with an aggressive adhesive backing and removable liner. This product complies with SOLAS/IMO requirements approved by the US Coast Guard, European BV and many other countries. Certified to Type 1 and Type 2 applications, and ATON (Aids To Navigation). Meets U.S. Coast Guard Specification G-SEC-393A for use on Maritime Aids to Navigation.

Polyethylene

Tape

Our series of Polyethylene Tapes offer a very aggressive adhesive on a thick water-proof polyethylene film carrier. These tapes are great for sealing and hanging polyethylene sheeting as well as seaming sheets together. It is also a common product for use in vapor barrier installations.

Excellent choice for use in isolating dissimilar metals, bundling and protective packaging applications. This tape is great for palletizing heavy loads due to its strength and conformability.

Tape is available in assortment of colors and thicknesses. All tapes can be special ordered with a serrated "pinked" edge to aid in easy tearing, even with gloves on. Speak to your sales representative for a cross reference to other company tape products.

POLYETHYLENE TAPE

Stock No.	Adhesive Type	Tape Thickness	U.V. Resistance	Applications
PTK33	Synthetic rubber pressure sensitive adhesive. Clear color, low residue.	4.5 mils polyethylene 3.0 mils adhesive ----- 7.5 mils total tape thickness	No	Bonds well to most surfaces over a wide temperature range. Excellent low temperature bonding. Low residue adhesive.
PTK34	Synthetic rubber pressure sensitive adhesive. Clear color. Leaves no residue during removal on most surfaces.	4.5 mils polyethylene 2.5 mils adhesive ----- 7.0 mils total tape thickness	Yes	A UV stabilized product offering good outdoor weatherability and a watertight seal. Commonly in Stucco, greenhouse, agricultural and marine shrink wrapping applications.
PTK36	Synthetic rubber pressure sensitive adhesive. Clear color, low residue.	5.5 mils polyethylene 3.5 mils adhesive ----- 9.0 mils total tape thickness	No	Thick conformable tape with an aggressive tacky adhesive that bonds well over a wide temperature range. Excellent low temperature bonding, while maintaining a weather tight seal.
PTK39	Natural rubber pressure sensitive adhesive. Translucent white color.	4.5 mils polyethylene 3.0 mils adhesive ----- 7.5 mils total tape thickness	No	Permanent tacky adhesive bonds well to a wide variety of surfaces and performs better than synthetic at low temperature. Highly conformable offering a good watertight seal.

Hazard & Safety

Glow Tape

Protect your workers during blackouts and evacuations. Our Glow-in-the-Dark Tapes will "GLOW" 6+ hours. This product comes with an aggressive permanent pressure sensitive adhesive that will adhere to most any clean, dry surface.

Tape absorbs any ambient or UV light source, then releases this stored energy in darkness. Our Glow-In-The-Dark tape offers 6+ hours of Glow to the light adjusted eye. Please see data sheets for complete details of specifications and standards.

Value Grade

Barricade Tape

Looking for an opening price point barricade tape product? Look no further than our "Value" grade film. This product is made from a lighter gauge film from 100% virgin resin. This offers excellent strength and opacity for its thickness. This product would be a good choice for general light duty usage such as home and retail style applications.

We currently only offer the listed stock legends in this "Value" priced product, but custom legends and special printing are available on request. Please call for details.

All rolls are 3" x 1000' (72mm x 300M) on a 3" core. Check our website at www.incomdirect.com for product specifications.

Standard Grade

Barricade Tape

Our Standard Grade Barricade Tape offers an effective way to safely mark your hazards. The upgraded film thickness on these products offers better longevity and will perform longer in windy outdoor environments.

Rolls are printed either black on safety yellow or black on fire red. We currently only offer the listed stock legends in this "Standard" product, but custom legends and special printing are available on request. Please call for details.

All rolls are 3" x 1000' (72mm x 300M) on a 3" core. Check our website at www.incomdirect.com for product specifications.
