

Brookfield™ | Deluxe

Natural Spectrum® Floor Lamp

- Fashioned after apothecary lamps displayed at the 1904 Exposition in St. Louis, and combined with state-of-the-art electronics and Natural Spectrum® daylight illumination
- 10,000 hour Global Cooling™ bulb saves \$100 in energy when compared to incandescent bulbs delivering 150W of bright white light while using only 26W of power
- Energy-efficient technology helps reduce greenhouse emissions
- 3 attractive finishes match any décor: Nordic Bronze, Brushed Nickel, Aged Bronze
- Verilux® Optix® glare reduction system provides unrivaled reading comfort without eyestrain
- Attractive 4-color package with complete instruction manual

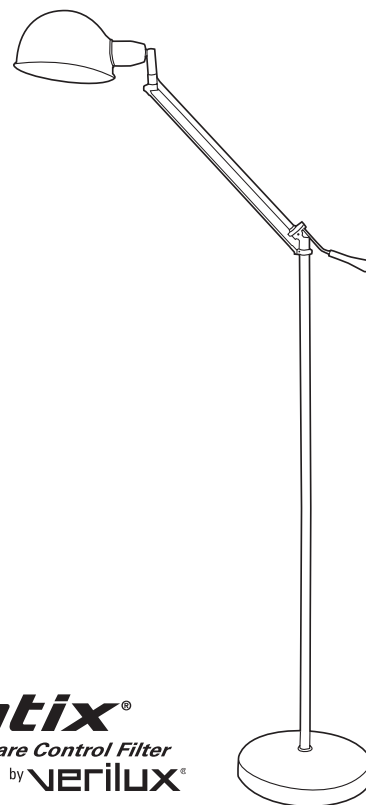

Brookfield™ | Deluxe

Natural Spectrum® Floor Lamp

Based on lamp designs premiered at the St. Louis Exposition in 1904, the Brookfield™ is a perfect combination of antique styling and 21st century efficiency. The lamp head rotates and tilts for perfect positioning, and a counterbalanced handle makes raising and lowering the extended shaft a breeze.

Employing the new energy efficient technology of the Verilux® 26W Global Cooling™ compact fluorescent bulbs, illumination simulates daylight brightness, while the electronic ballast delivers flicker-free, instant-on reading and task lighting. The exclusive Optix® glare control filter provides unmatched glare-free reading light that actually rests your eyes the more it is used.

Traditional finishes and solid metal construction include Nordic Bronze, Brushed Nickel and Aged Bronze – each with a one-year limited warranty. Each lamp is shipped in an attractive 4-color retail carton with complete assembly instructions and with a 10,000 hour/ life bulb..
