ASSEMBLY AND INSTALLATION INSTRUCTIONS

Rack Assembly

- 1) Lay uprights on the floor with the foot pointing away from you. Attach the Top Crossbar to the insides of two uprights. The tool bar will be notched as this is where the broom, shovel and poker will hang.
- 2) With the upright pointing away from you, attach the bottom cross bar to the upright with the top cross bar on top.
- 3) The other set of Uprights can be attached to the outside of the Bottom Crossbar. You can now stand your rack up.
- 4) Attach the Crossbar crossways on the Bottom cross bar. This is for added support.
- 5) Attach the newspaper bars to the outside of the upright opposite the notched top straight bar.
- 6) Square - up rack and tighten all button head screws using the hex key supplied.
- 7) Hang all tools. Your rack is now complete.
- 8) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury. Natural broom straw is flammable. Keep the broom will away from open flame. It should not be used to sweep hot coals or ash.
