- 2 – Arched uprights
- 1 – Arched Kindling holder
- 2 – Long legs
- 1 – Central support leg
- 2 – 3/8" x 1/2" button head screws
- 6 – 3/8" x 5/8" button head screws
- 1 – 7/32" Allen wrench
- 6 – Soft floor glides

ASSEMBLY AND INSTALLATION INSTRUCTIONS

- 1) Slip the floor glides over the ends of the arched uprights and the ends of the central support leg.
- 2) Attach the two arched uprights to the long legs using four of the 3/8" x 5/8" button head screws and the Allen wrench.
- 3) Place the central support across the middle and underneath the long legs and attach them together with the two remaining long button head screws.
- 4) Using the two 3/8" x 1/2" button head screws attach the kindling holder to the arched upright piece with pre-drilled holes.
- 5) Square up the rack and tighten all screws firmly.
- 6) To clean your rack, use a damp cloth and dry it thoroughly. If a touch up is ever necessary, remove any dirt or rust with steel wool and re-coat with a "Pledge" like wax product.
- 7) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
