Enclosed you will find everything needed for the assembly and use of your storage rack. Two people make assembly and installation easier. The parts and hardware included are:

Hardware included:

- 4 – 3/8" x 5/8" Button head screws
- 1 – 7/32" Allen wrench
- 4 – Hard glides

Components included:

- 2 – Uprights
- 2 – Legs

ASSEMBLY AND INSTALLATION INSTRUCTIONS

- 1) Slip the hard glides over the ends of the legs.
- 2) Place the Uprights on top of and perpendicular to the legs. Using the Allen wrench and the four 5/8" button head screws, attach the legs and the uprights together. The screws should be inserted from the top down toward the floor. Tighten the screws only finger tight.
- 3) Square up the rack and tighten all the screws firmly
- 4) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

WARNING

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
