## Sling Rack LR2

**Enclume hearth racks are the ultimate in Quality, design, strength and function. Congratulations for owning one of the finest Storage racks made.**

### **WARNING:**

**READ ALL OF THE INSTRUCTIONS BEFORE ASSEMBLING AND USING YOUR RACK.**

Enclosed you will find everything needed for the assembly and use of your hearth rack. Two people make assembly and installation easier. The parts and hardware included are:

- 2- Rectangular pieces with pre-assembled kindling slings
- 4 – 3/8” x 5/8” Button head screws
- 2- Legs
- 1-7/32” Allen wrench
- 4- Hard floor glides

### **ASSEMBLY INSTRUCTIONS**

- 1) Slip the floor glides over the ends of the legs.
- 2) Position the two rectangular body pieces over the legs so the base forms a square. Attach the pieces together with the 5/8” button head screws. They should be inserted from the interior of the rack toward the floor. Tighten all the screws only finger tight.
- 3) Square up the rack and tighten.
- 4) Use the kindling holder for kindling only. **DO NOT** stack logs in the kindling holder.
- 5) To clean your rack, use a damp cloth and dry it thoroughly. If a touch-up is ever necessary, remove any dirt or rust with steel wool and re-coat with a “Pledge” like wax product.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
