Product Pack-262-3039

Hardware Pack-251-1326

**MODEL FEATURES**

---

- **10700** Series wood produce meets or exceeds **ISTA** shipping and **ANIS/BIFMA X5.5** (latest Rev.) testing requirements for office furniture.
  - **Door Hinge Adjustment:**
  - The concealed “European” hinges on HON doors allow easy three-way adjustment of door alignment.
  - To raise or lower the door, locate the recessed Phillips screw farthest to the rear of the hinge. Rotate this screw to adjust the height of the door. You do not need to loosen the center locking screw to make this adjustment.
  - To adjust the side-to-side gap between the doors, adjust the Phillips screw closest to the door on the surface of the hinge body. You do not need to loosen the center locking screw to make this adjustment.
  - To adjust the in-out pitch of the doors faces, carefully loosen the center locking screw and slide to the correct position. **CAUTION:** Do not move this screw outside the adjustment seat range or the door may dislodge and fall. Tighten the center locking screw when the correct adjustment has been made.
- \*\*\*Classical contemporary styling, with hardwood accents.
- \*\*\*Attach all stack ons to base unit using the double coated tape supplied with the stack on. Application is permanent and removal will call damage to base unit.

**PARTICLEBOARD:** All particleboard is ANSI grade IM3 or better.
