

**Educator™ Series PCRT-2**

Your video projector will always be safe and secure with Sound-Craft's compact PCRT-2 Educator mobile projector cart. Euro-hinged locking rear door and locking front drop-down projector door allow easy access during instructional periods yet provide necessary security when not in use. As an added bonus, the 24" X 24" work surface remains available for a laptop, document camera, or other instructional material. The cabinet interior features a tilting projector shelf with adjustable positioning stop to allow precise projector alignment on screen or board. A stationary shelf is also provided, with enough space below for an optional adjustable shelf. Both shelves feature 2" cable accesses for convenient routing. Additional cable accesses include a 2" cable port on top and 5" X 5" access in base.

Front-mounted swivel casters paired with stationary rear casters insure a stable platform for projection, yet allow for easy room to room mobility.
