

Bow Front Style Lectern

Sound-Craft System's contemporary bow front lectern makes a striking visual impact that cannot be ignored. Finely finished hardwood veneer curves uninterrupted around the lectern's exterior for a graceful, flowing look. With eleven available standard veneer finishes as well custom finishing, matching or accenting existing décor presents no problems.

Versatility and functionality are not sacrificed for appearance. An oversize work surface offers room to spare for a monitor, laptop, and presentation materials. Four built-in casters allow for easy positioning. An upper shelf puts materials right at hand, and an oversize storage area is perfect for large items. Two cable accesses are located in the base for easy cabling hookups. Secure equipment with standard locking Euro-hinged doors. A locking keyboard or accessory drawer is available, as is an adjustable shelf or 15-space rack mount. Task lighting, clock/timers, and many other options can be selected to meet specific needs.
