## SIZING CHART

Measure height of the chin to paws while dog is standing

HEIGHT

LENGTH

Measure length of body shoulders to rear

Use the sizing chart below to determine which size is right for you. We recommend these sizes based on our experience. You may purchase a larger size, but beware if you buy a size too small your dog may feel cramped. If your dog is close to the top of the measurement range provided, go for the larger size. If you have a puppy, go with the measurements of a full sized breed or largest breed in your mix.
