

Secto Design

Atto 5000

Northern lights. Crafted by hand in Finland, Secto Design Oy lamps are an elegant study in Scandinavian simplicity. Light radiates through slats of birch in architect Seppo Koho's designs, true to his credo that "light should softly invite people to come closer."

Introduced in 2009, the Atto 5000 represents a design departure for Secto. The light source is built directly into its rounded canopy, giving off a soft, filtered glow.
